COAL AND STEAMBOAT PROPERTY.—The *Erie* coal properties represent an aggregate of 10,500 acres of anthracite, of which about 9,000 acres are held in fee; also 53,000 acres of bituminous coal lands held in fee 14,000 acres of bituminous held under mineral rights. Its coal tonnage in the year 1899-00 aggregated 12,701,256, out of the 26,947,892 tons hauled. The Union Steamboat Co. has its terminal and other properties in Buffalo and a fleet of eight lake steamers. See V. 63, p. 514. The *Pennsylvania* coal properties acquired in 1900 are additional. See above.

STOCK.—The *stock* is to be held by J. Pierpont Morgan, Louis Fitzgerald and Charles Tennant, Bart., voting trustees, for five years, and thereafter until the new first preferred stock shall have received 4 per cent cash dividend in one year. The new company reserves the right to redeem either class of its preferred stock at par in cash. Provisions of voting trust and preferred stock certificate were given in SUPPLEMENT of April, 1897, page 3.

In Mar., 1898, Erie 1st pref. stock was increased from $30,000,000 to $43,000,000, and common stock from $100,000000 to $113,000,000, to acquire New York Susq. & Western stock.—See V. 66, p. 335, 573. The 1st pref. stock was further increased in 1901 $5,000,000 in connection with the purchase of the Pennsylvania Coal Co. V. 72, p. 136.

BONDS.—New York & Erie first 7s for $2,482,000, due May 1, 1897 were extended for 50 years at 4 p. c., payable p. & i. in gold. V. 64, p 180, 1040. The new first consolidated mortgage is for $175,000,000 [Farmers' Loan & Trust Co. trustee]—see **abstract** of deed V. 62, p. 89, and secures $35,000,000 prior lien and $140,000,000 general lien bonds.

Of the $140,000,000 *general lien bonds*, $91,003,000 are reserved for the ultimate acquisition of bonds and guaranteed stocks left undisturbed on various parts of the system [see list V. 62, p. 89], and $17,000,000 were reserved for new construction, betterments, additions, etc., after 1897, under carefully guarded restrictions, not over $1,000,000 to be used in any one year.

The position of the first consolidated mortgage is substantially as follows: It is a first lien [mortgage or collateral, the prior lien bonds, however, preceding the general lien bonds] upon the company's chief coal properties (except Penn. Coal Co.) upon its water transportation lines, including valuable terminal properties appurtenant thereto, and upon a number of profitable local lines in New Jersey and near Buffalo; it is a *second lien* upon certain minor coal properties and upon the railroads leading to all the coal properties, upon the terminals at Jersey City, upon the Buffalo New York & Erie Railroad (the main line to Buffalo) and the Buffalo terminal properties other than those upon which it is first lien, and upon the entire line from Salamanca to Chicago; it is a *second consolidated mortgage* upon the lines between Piermont and Dunkirk (446 miles.)

The collateral trust 4s of 1901 are secured by 51 per cent of the entire New York Susquehanna & Western stock ($26 000,000 total issue), nearly all of the Pennsylvania Coal Co stock, and the stock of the Erie & Wyoming Valley RR., Scranton, Pa., to Lackawaxen, 64 miles, and the Delaware Valley & Kingston RR. Of the bonds $32,000,000 will be issued to acquire these stocks (excepting the N. Y., Susq. & Western, already owned), the remaining $4,000,000 being reserved for improvements to the properties represented by the stocks acquired. A sinking fund of 10 cents per ton of coal sold will purchase bonds at not exceeding 105, otherwise to be applied to the drawing of bonds by lot, all such bonds to be kept alive and the accruing interest thereon to be added to the sinking fund, which, it was estimated, will be sufficient to retire the whole issue at or before maturity.—V. 71, p. 1219, 1311; V. 72, p. 44, and circular, p. 136, 532.

Real estate mortgages outstanding Oct., 31, 1900, $430,725.

Car Bonds—Under the first consol. mortgage of 1895 the company covenants to pay the interest regularly on all the old bonds in the table that are marked with a * or a ‡ (except N. J. & N. Y. bonds,) and to take them up and pledge them with the trustee at maturity.

Long Dock 6s see March, 1894, SUPPLEMENT under N. Y. L. E. & W. For *N. Y. Lake Erie & W. Coal & RR.*, see SUP. January, 1895.

The $1,777,990 equipment trusts of 1900 cover 1,000 steel freight cars and 50 consolidated freight locomotives. The $255,505 car trusts of 1900 cover 544 box cars.

FIXED CHARGES.—The fixed charges of the System were reduced by the reorganization from $9,400,000 to $7,860,000 per annum.

GENERAL FINANCES.—To Nov., 1, 1900, $3,452,000 of $5,000,000 prior lien bonds reserved for construction and new equipment were sold; also $1,903,000 general lien bonds issued for construction, etc.—V. 71, p. 754, 1219.

The purchase of the control of the Pennsylvania Coal Co. late in 1900 removed the possibility of an independent anthracite coal line to tidewater. The acquisition was financed by the issue of $32,000,000 collateral trust 4 per cent gold bonds and $5,000,000 first pref. stock.—V. 71, p. 1219, 1311; V. 72, p. 44, 136, 532.

An extension was built in 1898 between Fosston and Duluth, 230 miles. In Nov., 1900, extension from Wenatchee, Wash., northeast to Republic, 153 miles, was proposed. As to Kootenai Ry. & Navigation, see V. 71, p. 341. In Jan., 1901, an extension was proposed from the Kootenay district to the Crow's Nest coal region (Canada).—V. 72, p. 184, 480. STOCK, LEASES, ETC.—This corporation in February, 1890, leased the St. Paul Minneapolis & Manitoba for 999 years, assuming its funded debt and guaranteeing 6 p.c. per annum in gold on its $20,000,000 stock.

In 1898 $15,000,000 new Great Nor. preferred, was sold at par to shareholders to retire $15,000,000 col. tr. 4s of 1892, called for redemption Sept. 1, 1898, and $10,000,000 was exchanged for the $12,500,000 stock of the Seattle & Montana RR., which in June, 1898, was distributed as a 50 per cent dividend.

In October, 1898, the stockholders surrendered the right to issue $20,000,000 common stock in addition to the $50,000,000 preferred then outstanding, and made all the stock "of a single class, with uniform rights and privileges." Also authorized the purchase of the $20,000,000 of guaranteed 6 per cent stock of the St. Paul Minneapolis & Manitoba, on the basis of $125 Great Northern stock for each $100 Manitoba stock, thus increasing the Great Northern stock to $75,000,000. In Apr., 1901, $24,427,875 of the increased stock had been issued, leaving not over $457,700 of the Manitoba stock unexchanged.—(V. 68, p. 129; V. 67, p. 1356; V. 67, p. 370, 788, 842.)

In April, 1899, $15,000,000 additional preferred, raising total to $90,000,000, was offered to stockholders at par, to acquire all the bonds, debentures and stock of the Spokane Falls & Nor. Ry., Nelson & Ft. Sheppard Ry, Columbia & Red Mtn. Ry. and Red Mtn. Ry., and $7,500,000 new stock of East Ry. of Minn. V. 68, p. 772, 822, 1181.

In Jan., 1900, $9,000,000 additional stock was sold at par to stockholders to acquire $3,500,000 further stock of the East Ry. of Minn. and $5,500,000 stock of the Willmar & Sioux Falls Ry., issued for purchase of Sioux City & Northern and Sioux City & Western. V. 71, p. 655. In 1900 $1,000,000 stock was offered to Employes' Investment Co.—V. 71, p. 654.

In Mar., 1901, stockholders were offered the right to subscribe, at par, to May 20 to $25,000,000 new stock, raising the authorized amount to $125,000,000 ($20 per share to be credited on account for advances to the St. Paul Minneapolis & Manitoba Ry.), subscriptions being payable in five equal monthly instalments from May 27 to Sept. 25, both inclusive, the proceeds to acquire 500 miles of additional road and control of Great Northern Steamship Co.—V. 72, p. 580.

Minneapolis & St. Cloud grant was 476,864 acres; unsold July 1, 1900, 381,920 acres; sales in 1899-00 were 21,206 acres, for $187,596.

It is a first lien on the land grant and on 670 miles of railway in Minnesota and a second lien on the remaining 1,873 miles in Minnesota and the Dakotas, the prior liens on which average only $7,300 per mile. V. 64, p. 518. *Montana Extension* mortgage is for $25,000,000 for extensions and for second track. **Abstract** V. 45, p. 342.

V. 66, p. 1044, 1188. See **abstract** of mortgage, V. 52, p. 82.

Eastern Railway of Minnesota runs from Hinckley northward 70 miles, to a point near Duluth; the first mortgage covers road, equipment, terminals and elevators. The Northern Div. $15,000,000 mortgage of 1898 provides for extension building from Fosston, Minn., to the head of lake navigation at Duluth, and also for future requirements, including the retirement of the $4,700,000 1st 5s at maturity. They are redeemable at 105 on three months' notice after Apr. 1, 1928.—V. 66, p. 471. *Montana Central* bonds cover several roads. (See adv. CHRON. Dec. 12, 1891.) The Manitoba guarantees these issues, and the Great Northern assumes the guaranty.

The *Willmar & Sioux Falls* bonds are endorsed with joint and several guaranty of the Manitoba and Great Northern companies. Further issues may be made at $17,500 p. m. for additional road. V. 56, p. 247.

Minneapolis Western first mortgage is for $1,000,000. V. 60, p. 835.

The consol. mortgage of 1897 (United States Trust Co., N. Y., and John T. Dye of Indianapolis, Ind., trustees,) is for $50,000,000 of 3½ per cent gold bonds, tax free, authorized to retire the several issues of 7s maturing from 1898 to 1903 (see **abstract** in V. 64, p. **1182**) amounting to $43,192,000, and the balance, $6,808,000 for use in refunding said bonds and for general purposes of the company. The mortgage covers 829·54 miles of main line and branches—a considerable portion being double tracked—and 181·11 miles of leased lines. The refunding of the first 7s into new 3½ per cent consols will effect a saving in interest charges, when entire $50,000,000 are outstanding, of $1,273,440 a year. See refunding plan in V. 64, p. 469, 610, and also V. 66, p. 82; V. 67, p. 956. To Apr., 1901, $40,760,000 of 3½s had been listed.—V. 66, p. 1140; V. 68, p. 1182.

GUARANTIES.—As to guaranties additional to those shown in table above see Detroit Hillsdale & S. W. and Fort Wayne & Jackson.

Profit and loss surplus Jan. 1, 1900, $8,389,482. Low grades permit large train loads; average for 1899, 427 tons, against 352 in 1898.

In Dec., 1900, $36,551,000 of the $43,192,000 7 per cents due in 1903 and earlier, and outstanding in June, 1897, had been retired and $40,760,000 new 3½s issued, thus reducing fixed charges $1,131,970 per annum, or over 2 per cent on the capital stock.

In Feb., 1898, a majority of the capital stock was purchased by the N. Y. C. & H. RR., which gave in exchange its 3½ p. c. bonds at the rate of $200 in bonds for $100 in stock, and offered to take the minority interest on the same terms. V. 66, p. 288. Of the $3,000,000 of Mexican Government bonds receivable under Tampico Harbor concession for a depth of 22 feet, $2,790,000 (in Mexican Government 6 per cent bonds) had been received in April, 1895, corresponding to a depth of 20 feet, and these were exchanged in 1895 for $2,934,600 of 5 p. c. Government bonds.

BONDS.—Of the priority bonds $1,403,000 were paid off with proceeds of subsidy collections, interest ceasing April 10, 1891; the balance, $5,597,000, is held as an investment by the trustee of the consolidated mortgage. In Mar., 1901, in addition to the $65,643,000 consol. 4s shown above $3,268,000 had been certified by the trustee, of which $322,000 held for exchanges, $1,775,000 as collateral for equipment bonds, $1,000,000 purchased by trustee under subsidy trust fund and $171,000 issued to and owned by the company.—V. 71, p. 1220. Both series of incomes are non-cum. and secured by one indenture to the American L. & T. Co. of Boston. First incomes received 3 p. c. interest in 1890, 1891 and 1892; none since.

Equipment bonds for $1,000,000 (issued in 1897) were secured by a mortgage on the equipment purchased and the deposit in trust of $1,500,000 general 4s. The company is to pay 5 p.c. of loan annually, a proportional amount of fours being released.—V. 64, p. 843. The equipment and collateral 5s of 1900 are secured by deposit of $500,000 general 4s in addition to equipment purchased and will be further secured by $250,000 additional 4s as released from time to time up to 1904 from the lien of the first series. They are redeemable at 102½ per cent after ten years.

In Mar., 1901, $3,200,000 first incomes were listed, raising the amount outstanding to $20,511,000, the proceeds it was stated being applied to the reduction of the floating debt, the notes payable being reduced to about $500,000, against $1,594,000 on December 31, 1900.—V. 72, p. 627, 675.

The Central has since transferred its holdings in these companies to the Lake Shore, which see. In 1900, also, an understanding was reached between the Vanderbilt and the Pennsylvania interests, by which the latter became jointly interested in Ches. & Ohio Ry.—V. 70, p. 76, 125, 1049.

The Boston & Albany RR., 394 miles, giving a through line to Boston, was taken over under lease Nov. 10, 1900. See that co. V. 71, p. 437.

BONDS.—Description of debentures was on page 3 of SUPPLEMENT of April, 1895. They are all secured by the refunding mortgage of 1897 equally with the 3½s. *Ref. mortgage* is for $100,000,000, of which $70,377,333 reserved to retire all existing bonds at or before maturity and $14,622,667 for premiums; the remainder ($15,000,000) is reserved for new construction after 1903. In 1900 3½s of 1897 had been issued to retire about $31,000,000 of old bonds.

Collateral trust 3½s of 1898 are secured respectively by deposit in trust with the Guaranty Trust Co., mortgage trustee, of stock of the Lake Shore & Michigan Southern and Michigan Central RRs. at the rate of $100 of L. S. & M. S. stock for each $200 of bonds and $100 of Mich. Cent. stock for each $115 of bonds outstanding. The total authorized issues of 3½s are $100,000,000 for Lake Shore and $21,550,000 for Michigan Central. The loans are secured by separate deeds of trust. See V. 66, p. 288, 336, 760, 811.

The N. Y. Cent. issued in 1900 $5,500,000 in its 100-year 3½ per cent debentures for certain property not included in the Boston & Albany lease. See V. 69, p. 1102; V. 71, p. 502, 964.

GUARANTIES.—The company guarantees the securities of its leased lines to a considerable aggregate—see separate statement for each company marked with a ¶ in the table of mileage preceding. It also guarantees Western Transit Co. 4½s for $1,000,000 due February, 1903.

GENERAL FINANCES.—The refunding of the $70,377,000 of old high-interest-bearing bonds into the 3½s of 1897 during the years 1898 to 1905 will effect a saving of $1,200,000 per annum in interest charges; to June 30, 1900, $30,671,479 old bonds had thus been retired; saving in charges by refunding in 1899-00, $512,776.—V. 71, p. 502.

In Dec., 1900, the company had acquired $45,289,200 of the capital stock of the Lake Shore road in exchange for 3½ p.c. bonds (see above), leaving $4,177,300 afloat, including $533,500 guaranteed 10 per cent dividends (see V. 66, p. 288, 336, 1238), and also $16,435,500 of Mich. Central stock, leaving $2,302,500 still outstanding.

On April 2, 1900, $15,000,000 stock, sold to stockholders at par, was issued for new equipment. V. 69, p. 906, 1103, 1248; V. 71, p. 502. On Nov. 10, 1900, Boston & Albany RR. was taken over under lease.

V. 71, p. 502, 505. Late in 1900 this stock, except that of the Ches. & Ohio, was transferred to the Lake Shore.

Average train load for entire system, including company's freight, was 398 tons in 1899-00, against 361 tons in 1898-9.

The voting trustees elect directors in the interest of the common stock. See V. 61, p. 425, 426, and editorial, V. 65, p. 495.

BONDS, ETC.—*Refunding mortgage* for $20,000,000 covers 319 miles of road owned, all the securities of the Ontario Carb. & Scranton Ry., 54 miles, and all other property hereafter acquired. The balance unissued is available for additions, improvements, etc.—V. 72, p. 87.

GENERAL FINANCES.—Early in 1899, the coal properties at Scranton, Pa., of the Lack. Iron & Steel Co., (the capacity of the collieries then open being about 700,000 tons per annum) were purchased by the Scranton Coal Co., aided by loans from the N. Y. O. & W., the latter issuing its $2,500,000 5 p. c. notes (reduced to $2,450,000 in 1899-1900), extending over a period of years secured by first mortgage on the coal property, and loaning $1,475,000 (of which $305,000 has been repaid) secured by a second mortgage thereon, the O. & W. obtaining a contract for the entire tonnage. V. 68, p. 41, 429. The coal companies are expected ultimately to take care of all the obligations created.—V. 69, p. 604, 646.

In November, 1900, eight independent anthracite properties with a maximum output of 2,000,000 tons annually were merged as the Elk Hill Coal & Iron Co., the N. Y. O. & W. issuing its $3,500,000 5 per cent sinking fund first lien gold notes secured by the Coal & Iron Company's first mortgage, these notes maturing $75,000 each 6 mos., beginning June 1, 1901, to June 1, 1911, and thereafter $200,000 semi annually to Dec. 1, 1915. In the event of any additional mortgages being placed on the railroad properties besides the refunding mortgage, the notes are to be secured pari passu with such new obligations. Of the first lien notes, $500,000 were in the treasury on Apr. 1, 1901. The Elk Hill Co. also made a second mortgage to the N. Y. O. & W. for $1,500,000 at 5 per cent. V. 71, p. 1270.

The company's coal tonnage is derived from the following sources: Scranton and Elk Hill companies (as above stated), total maximum capacity, 2,700,000 tons; other companies, 300,000.

BONDS.—The first consolidated mortgage of 1896 is limited to $62,500,000, of which an amount equal to the underlying bonds can be issued only on the retirement of the same. The balance is or was reserved as follows: For new construction, acquisitions and improvements, not exceeding $1,000,000 yearly, $9,690,436 and $3,500,000 additional for similar purposes. The right to issue prior lien bonds has been annulled.—V. 72, p. 438.

The *new 4 per cent first consols* are a first mortgage on a large part of the system, viz., upon 833 miles of railroad; upon important terminals at Norfolk and Lamberts Point; upon the Ohio River Bridge and the Roanoke Machine Works; besides being a consolidated mortgage upon the remainder of the system, subject to the undisturbed liens. They are further secured by the equipment, certified to have cost over $11,000,000, covered by the car trusts and equipment bonds to be taken up under the plan. Undisturbed bonds which cannot be taken up at maturity on satisfactory terms by use of the consols reserved for that purpose may be extended or renewed. See **abstract** in V. 64, p. 376. The lien of the mortgage will be extended over the Cincin. Portsm. & Va., acquired in 1901, after redemption of the bonds about July 1. V. 72, p. 137, 438, 532, 723.

Northern Pacific Ry. (Concluded.)—purchased and the road will be extended northerly about 90 miles, under the charter of the Minnesota & International Ry., of which the entire stock is owned. On Feb. 1, 1900, a portion of the Everett & Monte Cristo Ry., Snohomish to Everett, 11½ miles, was leased and will be purchased during 1900-1. V. 71, p 648. In Sept., 1900, the Chicago Milw. & St. P. arranged for trackage over the St. Paul & Duluth Division—V. 71. p. 256, 603, 1167.

The original Northern Pacific Company was chartered by Congress July 6, 1864; 450 miles to Bismarck were foreclosed in 1875. On Feb. 1, 1898, took over Seattle & International, and in July, 1898, the Washington Central under lease (V. 66, p. 856), and in February, 1898, purchased the entire capital stock and all of the income bonds of the Washington & Columbia River Ry. See separate statements for these Washington companies. All, or substantially all, of the securities of the Seattle & International Ry. are owned, and on Apr. 1, 1901, merged road in system. On July 1, 1900, the St. Paul & Duluth RR., St. Paul to Duluth, etc., 238 miles, was merged, its bonded debt being assumed.—V. 70, p. 1250; V. 71, p. 648. In Nov., 1900, extensions of branches were completed from Milnor, N. D., to Oakes, 33 miles, and from Oakland, Man., to Delta, 6 miles.

HISTORY.—This Wisconsin company on Sept. 1, 1896, succeeded to the railroads, land grant and other property of the Northern Pacific RR., foreclosed in July, 1896, and reorganized per plan in V. 62, p. 550.

In the reorganization the $49,000,000 old common stock paying assessment of 15 per cent received 100 per cent of new common. The $35,000,000 old preferred paying assessment of 10 per cent received 50 per cent in new common and the same of new preferred.

STOCK.—The new preferred stock is subject to call in whole or in part, at par, upon any first day of January prior to 1917.

Additional preferred stock and other mortgages can be issued only with consent of a majority of the preferred and of the common stock represented at a special meeting. Pref. stock is "entitled to non-cum. dividends to the extent of 4 per cent per annum, payable quarterly ont of surplus net earnings in each fiscal year before any dividends for such year shall be paid on the common stock." In any fiscal year in which 4 per cent dividends shall have been declared on both preferred and common stock, all shares, whether preferred or common, shall participate equally in any further dividends for such year. Dividends upon stock registered in Berlin may be collected there at the rate of 4·20 marks per $.—V. 63, p. 1071.

Packard) for five years, and thereafter until 4 p. c. cash dividend per annum shall be paid on the first preferred stock for two consecutive years, though the trustees may in their discretion surrender the stock at an earlier date. The company may, after dividends of 4% have been paid on the first preferred for two consecutive years, convert the second preferred stock into one-half first preferred and one-half common stock. Under this provision $383,525 was set aside in Mar., 1900, and $433,000 general mortgage 4s canceled; in year 1900-01 sinking fund about $750,000.—V. 72, p. 283.

BONDS.—The *General Mortgage* 4s (**abstract V. 64, p. 612**) are secured by mortgage and pledge of all properties and securities embraced in the reorganization, and also all other property acquired thereafter by use of the new bonds. They have above sinking fund out of the revenues from the Coal & Iron Company, but are not subject to compulsory redemption prior to maturity. On Mar. 17 Sapulpa to Denison, Tex. (St. Louis Okl. & So.—see below) was opened to all traffic.—V. 71, p 437. In Nov., 1900, purchased the Arkansas & Oklahoma RR., Rogers, Ark., and extended same to Grove, I. T., a total of 47 miles, included above.—V. 71, p. 1013.

Organization—Organized June 30, 1896, to succeed to the property and franchises of the *Railway* company sold in foreclosure and reor. per plan in V. 62, p. 829 and 1140—see also p. 742. Central Division of Atl. & Pac., 112 miles, was purchased in July, 1897.—V. 65, p. 150.

The Kansas City Suburban Belt terminal affords an entrance into Kansas City. The St. Louis & Oklahoma City Ry. Co., Sapulpa, Ind. Ter., to Oklahoma City, 103 miles, was purchased in 1899, formal possession being taken on March 28.—V. 68, p, 332, 674.

In Apr., 1901, parties interested in the St. Louis & San Francisco RR. had acquired a majority of the securities of the Kansas City Ft. Scott & Memphis and Kans. City Mem. & Birmingham railroads and also of the stock of the Ft. Worth & Rio Grande Ry., the latter extending from Ft. Worth, Tex., to Brownwood, 146 miles, and it was reported the St. L. & S. F. would extend its line to Ft. Worth from Sherman either by building itself or by trackage over the Texas & Pacific. —V. 72, p. 438, 532, 581.

In January, 1900, it was arranged to build the St. Louis Oklahoma & Southern Ry. as an extension from Sapulpa, Ind. Ter., to Denison, Tex., 200 miles, the entire stock to be owned by the St. L. & S. F. and its 4 per cent bonds to be guaranteed. Of the $5,500,000 bonds authorized $1,000,000 and any additional amount not required for construction and equipment are to be reserved. V. 70, p. 231.

In Mar., 1900, the purchase of the Kansas City Osceola & Southern Ry., Kansas City, Knoche Junction, to Bolivar, Mo., 147 miles, was authorized, the St. L. & S. F. to issue $3,300,000 divisional mortgage bonds, of which $306,000 fours are reserved for future requirements. Of the $3,300,000 bonds, $2,324,000 are 4 per cents and $976,000 3 per cents. Interest charge on unreserved bonds will vary from $60,000 the first year to $110,000 for the year ending Nov. 1, 1905, the maximum annual charge thereafter. V. 70, p. 532, 1096. They are redeemable on any interest day, the 3s at par and interest and the 4s at 102½ and interest.

The Northwestern Division 1st mortgage 4 per cent bonds cover the former Kansas Midland Ry. purchased from the bondholders' committee in 1900, $200,000 being reserved for improvements on the division. They are redeemable at 102½ and interest on any interest day. V. 70, p. 740, 945; V. 71, p. 182, 809, 1167, 1221.

Stock and Voting Trust.—As protection to the new mortgage bonds, all classes of stock (except shares to qualify directors) are vested in the following voting trustees: John A. Stewart, Louis Fitzgerald, J. Kennedy Tod, Isaac N. Seligman, Benjamin P. Cheney, Samuel C. Eastman and James A. Blair, to be held by them and their successors jointly for five years, and for such further period (if any) as shall elapse before the first preferred stock shall have received a 4 per cent cash dividend for two consecutive years, although the voting trustees may, in their discretion, deliver the stock at any earlier date, but not in any event prior to Jan. 1, 1902, save with the consent of the holders of at least two-thirds in amount of the beneficial interest certificates of each class. Voting trust is dated July 1, 1896.

The new company reserves the right at any time to redeem either or both classes of its preferred stock at par in cash. Provisions of the voting trust and preferred stock certificates were given in Supplement of April, 1897, page 6.

As to proposed increase of stock see Bonds below. V. 72, p. 723.

Bonds—The consolidated mortgage (trustees, Mercantile Trust Co., N. Y., and Paschal P. Carr, of St. Louis) for $50,000,000 (**abstract** in V. **64**, p. **186**,) is secured upon all properties and securities embraced in the reorganization and also all other property hereafter acquired by use of any of the new bonds. Enough new bonds at the rate of 80 per cent (approximately $39,072,000) were reserved for retirement of all outstanding underlying issues, and the remainder for betterments, equipment, etc., at not over $300,000 yearly. (V. 64, p. 182.)

The holders of stock trust certificates will vote on May 16, 1901, on a proposition to issue a 50-year 4 per cent refunding mortgage, and in order to comply with existing laws to authorize an increase in the total capital stock from $50,000,000 to $100,000,000, of which $15,000,000 will be second preferred stock and the balance common stock. None of the additional stock, it is understood, will be issued at present. Of the bonds $62,500,000 will be used to refund existing bonds, terms therefor to be announced in May, the balance to be reserved for extensions and improvements. A syndicate has purchased $30,000,000 of the bonds and has taken an option on about as much additional.—V. 72, p. 723.

As to other loans of 1900 see organization above.

The proposed refunding will on completion save $70,000 in interest charges annually, unify debt and enable company to finance to advantage its additions and improvements. V. 72, p. 723. ORGANIZATION.—Organized under laws of Kentucky. In Feb., 1901, the Union Pacific acquired $70,000,000 to $80,000,000 of the capital stock, a strong working control, but the road will continue to be operated independently. V. 72, p. 242, 284. Under plan for readjustment of Central Pacific securities, the Southern Pacific in 1899 acquired the entire capital stock of the Central Pacific. See that company's statement; also see below.

In Jan., 1900, Southern Pacific interests acquired control of the Galveston Houston & Northern, Houston to Galveston, 53 miles. In Feb., 1900, substantially all the stock and bonds of the Carson & Colorado were acquired and the road will be broad-gauged and eventually extended as a link in a new line made from Los Angeles, in Southern California, easterly towards Salt Lake, Utah. In Feb., 1900, practically all the stock of the Houston East & West Texas Ry. and Houston & Shreveport RR. were acquired.—V. 70, p. 176, 381, 687. In July, 1900, the Ogden & Lucin RR. was incorporated, with $1,000,000 stock, to build the proposed cut-off on the Central Pacific across the Great Salt Lake from Lucin to Ogden, Utah, 107 miles, a saving of 39 miles over the old line. V. 71, p. 55. In Nov., 1900, a majority of the Pacific Mail SS. stock ($10,005,000) was acquired. V. 71, p. 1013, 1312.

PROPRIETARY LINES.—These, with a total mortgage indebtedness June 30, 1900, of $319,914,106, are mostly owned—only $1,666,503 out of their total stock of $291,273,572 not being held on July 1, 1900, by the Southern Pacific Co. "OMNIBUS LEASE," see SUP'T of Jan., 1899.

STOCK, ETC.—Total stock authorized, $200,000,000, including $67,275,500 exchanged in 1899 for Central Pacific stock—see Central Pacific and V. 68, p. 378, 725; V. 69, p. 132; V. 70, p. 740.

BONDS.—The fifty-year 4 per cent collateral trust gold bonds authorized by the Southern Pacific Co. in 1899, in connection with its acquisition of the stock of the Central Pacific, are for the total authorized amount of $36,819,000, and are subject to call at par on six months' notice. The first issue of $28,818,500, secured by the $67,274,200 common and $12,000,000 preferred stock of the Central Pacific, was issuable forthwith. The remaining $8,000,000 can be issued from time to time only as an equal amount of Central Pacific preferred is received and added to the collateral, $5,000,000 of this stock being reserved for improvements and additions on the Cent. Pac. at not exceeding $200,000 yearly—see Cent. Pac. and V. 68, p. 378. See Mortgage Abstract, V. 69, p. 859.

The first refunding 4s and 30-year gold 3½s issued by the Central Pacific are unconditionally guaranteed, principal and interest.

The two-five-years collateral trust 4½s of 1900, limited to $30,000,000 (present issue, $15,000,000), are secured by deposit of $7,174,000 par value of various bonds and $59,487,000 stocks of companies controlled, including Pacific Mail etc., and $1,530,000 Wells, Fargo & Co. stock; other $15,000,000 is issuable against the deposit of additional stocks and bonds of companies controlled or acquired up to 90 per cent of the actual cost thereof. See Mortgage Abstract, V. 71, p. 1314.

On Dec. 10, 1899, a new line was opened from Columbia, S. C., to Savannah, Ga., about 160 miles, of which the Carolina Midland, Perry to Allendale, 52 miles, forms a part, the Co. building from Columbia to Perry, 31 miles, and using Atlantic Coast line and Plant system trackage from Allendale to Savannah, the latter being partly replaced by the construction of its own line from Allendale to Hardeeville, S. C., 50 miles, opened Dec., 1900, V. 71, p. 447. In Oct., 1900, extension from Burgin to Jellico, Ky., 115 miles, and other extensions were proposed, including one from Chattanooga, Tenn., to Stevenson, Ala., about 38 miles, under the charter of the Memphis-Chattanooga RR., for which $3,000,000 bonds were reserved under Mem. & Charleston first mortgage. V. 69, p. 956. The Louisville Evansville & St. Louis Consolidated RR. was taken over after foreclosure on Jan. 1, 1901, and in 1901 a majority of the stock and general mortgage bonds of the Mobile & Ohio were acquired. See below. V. 70, p. 792, 1292; V. 71, p. 603; V. 72, p. 45. In Jan., 1901, the Ensley Southern Ry., substantially all of whose stock is owned, was building from Ensley, Ala., to Warrior River, 25 miles, on branch to Parrish, 35 miles. V. 71, p. 448.

ORGANIZATION, ETC.—A reorganization in 1894 of the old Richmond & West Pt. Ter. Railway & Warehouse system. The reorganization **plan** presented in May, 1893, was given in full in V. 56, p. 858, 874, and certain changes thereof in pp. 1016, 1058, and V. 57, p. 61. The modified plan of Feb. 20, 1894, was given in full in V. 58, p. 363, 385.

As to Cincinnati New Orleans & Texas Pacific, see V. 65, p. 1173. On July 1, 1898, absorbed Memphis & Charleston.—V. 66, p. 39, 185.

Mobile & Birmingham RR. (149 miles) was leased from June 1, 1899, for 99 years.—V. 68, p. 429, 1134; V. 69, p. 391.

In Apr., 1899, purchased the Northern Alabama, Sheffield to Parrish, Ala., and branch, 119 miles (V. 68, p. 824, 873); also acquired control of and leased the South Carolina & Georgia.—V. 69, p. 390.

Atlantic & Danville has been leased for 50 years from July 1, 1899.

STOCK.—Authorized $120,000,000 *common* and $60,000,000 *five per cent non-cumulative preferred stock.* No additional mortgage can be put upon the property, nor can the amount of the preferred stock be increased without the consent of holders of a majority of the preferred. The preferred stock is redeemable in cash at par. In Jan., 1900, reduction of the stock was authorized by the Virginia Legislature, on majority vote, whenever deemed desirable. V. 70, p. 177, 947, 1150.

Both classes of stock of the new company (except sufficient to qualify directors) are deposited with three stock trustees. The stock shall be held by the stock trustees and their successors, jointly till July 1, 1899, and for such further period (if any) as shall elapse before the preferred stock shall have paid five per cent cash dividend in one year, although the stock trustees may, in their discretion, deliver the stock at an earlier date. Certificates of beneficial interest, entitling the holder to dividends, are issued in lieu of the stock so deposited. Stock trustees, J. Pierpont Morgan, Charles Lanier and George F. Baker. Provisions of voting trust and pref. stock cert. in SUP. of April, 1897, page 6.

DIVIDENDS.—On preferred in 1897, Jan., 1 p. c.; in 1898, Jan., 1 p. c.; in 1899, Jan., 1 p. c.; Oct., 1 p. c.; in 1900, Apr., 1½ p. c.; Oct., 1½ p.c.; in 1901, April, 2 p. c. V. 72, p. 481.

Issued to June 30, 1900 (of which $1,276,000 in treas)...		$31,311,000
Issuable only to retire certain	"prior bonds" (see V. 59, p. 785).....	69,027,000

	equipment obligations (see V. 59, p. 786)	1,019,700
To be issued hereafter only for extensions and additions at not exceeding $2,000,000 yearly, with a single exception as to $4,000,000 (see V. 59, p. 786).....		12,942,300

Prior bonds must be paid by maturity.

The total authorized issue is $8,000,000, but $1,500,000 can be used only to build a line replacing trackage between Stevenson and Chattanooga, 38 miles. Of the remainder of the loan, $5,083,000 were issued to retire old mortgage indebtedness. The bonds cover the 292 miles of main line and branches, at $17,408 per mile. The balance ($1,417,000) is held for betterments at not exceeding $100,000 yearly. See description of loan in V. 67, p. 179.

Second mortgage on former Memphis & Charleston secures $2,500,000 of 5 per cents, of which $1,500,000 owned by So. Ry. June 30, 1900, and $1,000,000 reserved for improvements. *St. Louis Division* mortgage covers the former Louisville Evansville & St. Louis RR., consisting of 365 miles of main line and branches, the balance unissued, $4,250,000, being reserved for extensions, improvements or additional equipment—V. 72, p. 138.

The collateral trust 4s of 1901 will be issued dollar for dollar in exchange for the Mobile & Ohio general 4s as acquired, by a pledge of which they will be secured. Stock trust certificates for M. & Ohio stock will also be issued, upon which dividends will be payable at 2 per cent for one year, 3 per cent for the second year and 4 per cent in perpetuity thereafter. V. 72, p. 242. In Mar., 1901, over 70 per cent of the $9,472,000 bonds and over 90 per cent of the $5,320,000 stock had been deposited. V. 72, p. 439.

Equipment notes of old co's June 30, 1900, $133,890. The Louisville Evansville & St. Louis Consolidated RR., acquired per plan V. 70, p. 1291, furnishes the Southern a new line into St. Louis. Under the plan the Southern issued its St. Louis div. gold bonds. V. 72, p. 138. The acquisition of the Mobile & Ohio in 1901 will afford a line to Mobile and Montgomery, Ala., etc. See BONDS above.—V. 72, p. 242.

UNIFORM MUNICIPAL ACCOUNTS AND STATISTICS.

The attention of good citizens who are of a reforming spirit is being directed more and more to our municipalities, not alone because of political malad ministration, but also because of the unbusinesslike manner in which their affairs are being handled. The latter is true even of localities that are freed from the baneful effects of rule by politicians, who use the party machinery for private ends.

American cities, not being controlled by any central authority, exhibit an entire lack of co-operation between the different administrative departments, many of which, besides, are independent of a higher control. These departments in a large number of cases display a complete ignorance of the simplest principles of ac counting, and to make matters worse a system when once established is not permitted to remain, but changes with a change in management, so that no comparison of results over a series of years is possible. So serious has this condition become, and so great have the difficulties proven to those who have at tempted scientific investigation of municipal problems on the basis of existing statistics, that steps have been taken by a number of scientific societies looking toward improvement. The Associations that have appointed committees on uniform municipal accounts and statistics are the American Gas Light Association, American Public Health Association, American Society of Civil Engineers, American Society of Municipal Improvement, Central States Water Works Association, National Electric Light Association, National Municipal League, New England Water Works Association and the New Jersey Sanitary Association. A number of other associations have signified their intention to take the subject under consideration.

The most recent report on the question was made to the American Economic Association at a meeting held in Detroit on December 29 by a committee of which Mr. M. N. Baker of the "Engineering News" is Chairman. As this report was not a final one the committee did not offer detailed methods of procedure, but confined itself to the presentation of the general plan. Municipal accounts, the committee maintained, should show clearly the cost of construction, depreciation and maintenance charges of each form of municipal activity, and should separate ordinary from extraordinary revenue and expenditures; the reports should summarize these facts and give in addition full statistical and descriptive information relating to the nature, extent, workings and results of the various municipal works; the full reports of the separate departments should be supplemented by condensed annual summaries, largely statistical, for the entire municipality. In other words, the project for reform has two distinct ends in view: first, uniform accounting, and, second, uniform methods of summarizing accounts for presentation in city reports, in order to give taxpayers a comprehensive idea of the methods and results of the various city departments and to make possible comparisons between different cities.

Bearing in mind the existence of committees of other associations prepared to handle the phases of municipal activity with which they are familiar, the committee suggested that the Economic Association might address itself to municipal taxation and finance, not of course from the standpoint of theory, but from that of uniform accounting and statistics. Such questions would include: the advisability of placing all taxes on real estate, compensation for municipal franchises, municipal ownership, and day labor versus the contract system.

The reform movement is now fairly under way, and what is at present needed is the co operation of the various reform agencies to the end that efforts may be directed with greater exactness and that duplication of activity may be avoided. The committee accordingly recommended the encouragement of co-operation between the various sanitary, engineering and other technical societies, in the hope that a general conference committee may be formed composed

of members from the committees of the societies, and that some one committee having a strong membership and backed by a society that can provide it with funds will act as a centre for the investigation and correlation of plans, and for finally presenting a complete scheme of uniform municipal accounts and reports. They urged further, that after such a plan had been formulated by co-operative effort, steps should be taken to secure its adoption by the municipalties through the agency of State boards of municipal control or special State commissions.

The committee suggests that much valuable information could be placed within the reach of investigators if the National Government published annually a comparative summary of municipal statistics of the whole country. We cannot think that course is at all necessary or advisable. The work belongs to the State and city, stimulated by these private societies and the people at large. Tumble any part of it over on to the General Government and we speedily transfer the responsibility so far from the activities and heart of the people as soon thereafter to relieve and destroy individual action and accountability. Besides, the fundamental principle of our political organization is a stern command to the Central power—"hands off from our municipalities." What the public needs is to get back to the town-meeting idea, and not look as far as possible from itself for a scapegoat to carry burdens which duty and principle require should be removed or lifted through work done at the home centre. While therefore highly regarding the value of uniform methods of accounting and like summaries of statistics extending to as many cities as possible, we deprecate the interference of any department of the General Government in the undertaking. The present Census Office will no doubt issue exhibits which will perhaps furnish the public with facts more in detail than it now has with reference to the nature and extent of municipal activities; and so far as it does, those results can serve as a basis for detailed inquiries by societies, State officials, etc.

The Economic Association continued the same committee in power, and thus endorsed the policy of the co-operation of scientific societies for the attainment of the ends sought. Although the net results of the reform movement are very small when compared with what remains to be accomplished, the situation is by no means hopeless, and some improvement is to be looked for in the near future.

SAVINGS BANK INVESTMENTS AND MUNICIPAL BONDS.

An inquiry into the subject of the investments of the savings banks of this State seems pertinent at the present time in view of recent discussions and events. On the one hand, it will be interesting to see what changes have taken place in the security holdings of these institutions as the result of the extension during the last few years of their permissible line of investments—that is, how largely they have availed of the privilege accorded under late amendments of the laws to place their moneys in new classes and kinds of obligations. On the other hand, it will be interesting to study these changes in the light of the movement of prices of municipal bonds, more particularly for the purpose of determining whether the course of municipal bond prices has been influenced by such changes. It may, perhaps, be recalled that the addition of new classes of investments was opposed by certain persons who argued that the effect must be to diminish the demand for municipal bonds, thereby lowering the price at which such bonds could be disposed of.

The enlargement of the scope of the investment field of the savings institutions in this State during the last decade has, as the reader knows, been very material. The enlargement has been accomplished through a gradually widening process, only one step at a time being made. The record of our law-makers in this respect, indeed, has been very conservative. They showed decided reluctance to extend the authority of the institutions so as to allow the purchase of new kinds and classes of obligations and may be said to have yielded only as necessity made it clearly manifest that the original category was surely inadequate. In an article in the STATE AND CITY SUPPLEMENT for April 1898 we reviewed the earlier of the steps in the process. All the banking laws of the State were revised in 1892. Savings banks were included in the revision, but no essential alterations were made in the investment features. As before, the institutions were limited in their choice to three classes of securities (independent of real estate mortgages), namely, (1) U. S. Government securities, including the bonds of the District of Columbia; (2) State securities, and (3) municipal securities of this State. In 1893 an amendment was made in the law which permitted the banks for the first time to invest in the securities of municipalities *outside* of this State. The provision was not a general one, taking in all outside cities, but comprised merely certain designated municipalities. The list was made up of Boston and Worcester, Mass.; St. Louis, Missouri; Cleveland, Ohio; Detroit, Michigan; Providence, R. I., and New Haven, Conn. In 1895 the list was enlarged by adding Cambridge, Lowell and Fall River, Mass.; Cincinnati and Toledo, Ohio; Grand Rapids, Mich.; Hartford, Conn.; Portland, Me.; Philadelphia, Pittsburg, Allegheny, Reading and Scranton, Penn.; Minneapolis and St. Paul, Minn,; Des Moines, Iowa; Milwaukee, Wis.; Louisville, Ky.; Paterson and Trenton, N. J., and Baltimore, Md. In 1896 Springfield, Mass., and Newark, N. J., were added to the list, and in 1897 Holyoke, Mass., and Camden, N. J.

A more radical departure came in 1898, when privilege was accorded to invest in railroad mortgage bonds under certain carefully defined restrictions and limitations. This early privilege, however, was a narrow one. It was circumscribed so as to include only railroad corporations of this State the principal part of whose road was located within the State. In 1899 this privilege was extended so as to include (under the same restrictions) roads of other States connecting with and controlled and operated as part of a system in this State, and also so as to include (under still more stringent requirements in certain respects) bonds of the Chicago & NorthWestern RR., the Chicago Burlington & Quincy, the Michigan Central, the Illinois Central, the Pennsylvania RR., the Delaware & Hudson Canal, the Delaware Lackawanna & Western, the New York New Haven & Hartford, the Boston & Maine and the Maine Central; also the Fonda Johnstown & Gloversville RR., which was put in a class by itself. In 1900 the Chicago & Alton was added to the list. At this year's session of the Legislature further additions have been proposed, but none of the bills had become laws at the date of this writing.

It follows as a matter of course that savings bank managers have not been slow to take advantage of the opportunities thus offered for extending their investments into these new fields. The purpose of this article is to show the aggregate extent of their purchases of this kind, and the influence of such purchases on their holdings of the old lines of securities. We have accordingly compiled the following statement giving the holdings of the various kinds and classes of bonds on January 1 1901, in comparison with corresponding figures of a number of previous years.

From the foregoing it is evident that the banks have availed very liberally of their new privileges. They held 80¾ millions of railroad mortgage bonds on January 1 1901, against none of this class of obligations on January 1 1898. It appears, nevertheless, that they have not neglected any of the old forms of permissible investments. Thus, they have been steadily adding to their holdings of bonds of cities in this State, and now report $149,534,933 of such bonds on hand, against $128,855,349 on January 1 1898, an increase in the three years of over 20½ million dollars. The item of bonds of cities of other States now amounts to $82,654,853, against $52,300,426 in 1898, making an addition in the three years of 30 million dollars. Some of the minor items like town bonds show irregular changes, recording a decrease from earlier years, but no conclusions can be drawn from this, as there is never any considerable supply of these bonds, and old issues are constantly being paid off. The one leading class of obligations in which there is a marked decline is United States Government bonds, the total now being only 58½ millions, against 100¾ millions Jan. 1 1898 and 110 millions Jan. 1897. Here of course the high price to which the bonds have advanced and the low return netted by them furnishes a perfectly obvious explanation of the falling off. It will not escape notice that real estate bonds and mortgages still constitute the largest single item of investments, the aggregate of the same for January 1 1901 standing $436,957,784. The corresponding total January 1 1898 was $358,943,901, so that in the three years the banks have enlarged their ownership of this form of obligations by 78 million dollars.

A fact of considerable importance in its bearing upon the changes here outlined is the great growth that is going on in the deposits and resources of the banks. Taking the resources as the best measure of the investment requirements of the banks, we may note that the aggregate of these resources last year passed the one-thousand-million mark, and January 1 1901 reached $1,066,019,217. On January 1 1898 the total was $869,751,244, and on January 1 1893 it was but $718,454,662. Hence in the three years since railroad bonds have been added to the list, the funds which the savings institutions have had to employ have increased 196 million dollars, and in the eight years since municipal bonds outside of this State were first brought within their province, the addition to the funds in their possession has been over 347 million dollars. When this circumstance is recalled and when furthermore it is remembered that there has been a coincident marked expansion in the deposits of the savings institutions in other States, and particularly in those of New England, not alone the wisdom but the pressing necessity which existed for opening these new fields to the banks would seem to be put beyond question.

It is nevertheless desirable to see what the course of prices of bonds of municipalities in this State has been in the three years since authority has been conferred upon the banks to buy railroad bonds. At the outset, however, it is well to remember that from the very nature of the case no positive conclusion can be drawn on the point as to whether the changes in the savings bank laws have had any influence upon such prices. Necessarily a variety of circumstances enter as factors into the course and tendency of prices over a given period. The supply of bonds offering, the condition of the money market, the state of general confidence, the state of trade and business and the opportunity afforded to ordinary moneyed capital for finding profitable employment in other directions—these are all elements in the problem. In a broad, general way it may be said that municipal bond prices are not now at the lowest.

A few illustrations will serve to give an idea as to what the tendency of prices has been during the last three years. Albany sold a considerable amount of bonds in December 1897 on a basis of 3·18 to 3·20 per cent. This was before the banks had authority to invest in railroad bonds of any kind. In June 1898, after permission had been given to buy railroad bonds of this State, a $200,000 issue of Albany bonds could be disposed of no better than at 3·22 per cent. As a matter of fact, however, the new law had absolutely nothing to do with this advance in interest rate. The advance was due to the fact that the breaking out of the Spanish-American war had unsettled the markets for the time being, municipal bonds by reason of that fact having in the spring become almost unsalable. With the return of confidence, owing to the brilliant victories of the American forces, Albany in November 1898 sold $195,000 and $14,000 4s respectively at prices yielding the purchaser 3·07 and 3·06 per cent, and in February 1899 found takers for $100,000 and $30,000 3½s on a basis of 3·04 per cent. On the other hand in November 1899 we find that 3·50 had to be paid for money on a sale of $130,750 4 per cents. It is true that savings institutions had in the meantime had their line of investments further broadened, but it is also true that the money market was greatly disturbed. The present year $124,000 and $65,-

000 3½s were sold on a basis of 3·05 and 3·11 per cent. Buffalo disposed of bonds in December 1897 on a 3·18 per cent basis, and in March 1898 borrowed at 3·11 and 3·10 per cent, but in May 1898 paid 3·34 and 3·37 per cent. November 1898 saw the rate down again to 3·09, and April 1899 witnessed a drop to 2·99 and 2·96 per cent. From this there was an advance again until October 1899. when 3·27 was paid. The most recent loan of Buffalo, namely March 1901, was placed on a 3·03 per cent basis. For New York City the differences have not been so wide, because unusual care has been exercised in selecting the time for the sales, offerings being often withheld when the monetary surroundings were unfavorable. In the main, however, the experience has been much the same. In December 1897 the municipality borrowed at 3·11 per cent, in August 1898 it paid 3·23 per cent, in November 1898 the terms were 3·07 and 2·79 per cent, and in February 1899 2·89 per cent (though it is proper to say there was an exceptional feature connected with both the sale at 2·79 and that at 2·89), while in November 1899 3·16 per cent had to be paid. The offering in January of the present year found takers at 2·93 per cent, while the latest loan—that placed March 25—was sold on a 3·08½ per cent basis.

There is nothing in the changes here recorded that cannot be readily and directly explained by reference to market conditions without regard to the influence of the new laws. The illustrations given have very clearly established the fact, we think, that the municipal borrowing rate advanced during the spring and summer of 1898 when the war with Spain introduced a disturbing element of uncertain dimensions, and when, at the same time, the United States Government came in as a competitor in the bond market by floating a 200 million new loan. This point passed, the borrowing rate early in 1899 dropped to a lower figure than before. Again the latter part of 1899, when the stock and money markets alike suffered by reason of the collapse of the gigantic speculation and flotation of industrial undertakings, the fact was reflected in a marked rise in the interest rate which municipal borrowers had to pay. Since then the rate has been once more tending downwards, though the figure at present is in most instances a trifle above that reached the first half of 1899.

The fact that the best prices and lowest rates for municipal bonds in recent years were obtained at the beginning of 1899, and that this period was coincident with the passage of the law authorizing investments in railroad bonds outside of this State, and that at the same time the legislatures of Massachusetts and Connecticut in the same manner materially broadened the investment field of savings institutions, would appear at first sight to establish a pretty close connection between the two events; but careful consideration of all the facts applicable in the matter will show that this conclusion is not warranted. In the first place, the difference against 1901 is very slight at the outside, and in the second place such difference as there is would seem to be entirely due to changes in general conditions. Trade is more active now than it was then and Stock Exchange speculation is simply on an enormous scale. As a result many of the large moneyed institutions which ordinarily make investments in municipal bonds find greater remuneration in putting their funds out in loans at the Stock Exchange, and hence are not bidders for municipal bonds. Furthermore, it is to be remembered that during the last six months foreign municipal loans have been introduced in the market, where they now compete actively with domestic issues. Hardly a day passes but we receive the circular of some prominent house offering one or more issues of foreign government or municipal bonds at prices yielding the buyer very much higher returns than home bonds.

Of course we are not arguing that the municipal borrowing rate might not have been driven considerably lower had the savings banks been held down to the old classes of investment, but the wisdom and expediency of doing this may well be questioned. When municipalities can obtain money in the neighborhood of 3 per cent they are obviously able to borrow on easy terms. We shall not, however, enter into a discussion of this phase of the matter to-day. The fact is pretty well established, we think, from what we have said above, that the new laws, while being an advantage to the banks, have been no disadvantage to municipal borrowers in the way of imposing higher borrowing rates than formerly, the trifling rise in rates which has occurred being due to other causes.

United States Debt and Its History.

The following is a statement of the debt of the United States past and present. To add to its usefulness we give references to the laws authorizing each of the issues of bonds outstanding to-day, and likewise, so far as we deem it needful, citations from those laws.

All our figures, except when otherwise noted, represent the status at the close of business June 30 or the beginning of business on July 1 of each fiscal year. To conform to that feature and yet furnish information through which any reader can always have the data for a correct exhibit of the debt situation at any past or future day, and make an accurate comparison with previous years, we present, FIRST, the details as they stood at the close of the last fiscal year ending June 30 1900; SECOND, the changes in those details since June 30 1900 down to April 1 1901; THIRD, the items of interest-bearing debt, &c., at the beginning of each fiscal year since July 1 1876; FOURTH, we publish in the CHRONICLE every month—usually the first or second Saturday—the full detailed Government statement of the debt as reported by the Treasurer on the last day of the previous month; some months lack of space forces us to delay the publication to a later week.

With these data at his command, it would seem as if any inquirer could satisfy himself fully with reference to every point which might become of importance for him to know respecting the United States debt.

Aggregate June 30 1900 of debt bearing no interest		$388,761,732 41

The foregoing shows that the Government debt on June 30 1900 was made up of (1) interest-bearing debt, $1,023,478,860, of (2) debt on which interest has ceased, $1,176,320 26, of (3) debt bearing no interest, $388,761,732 41, making total *gross* debt, $1,413,416,912 67; subtracting from the total the net cash balance in the Treasury ($305,705,654 78) at the same date (June 30 1900) we have the net debt as it stood at the close of the last fiscal year, $1,107,711,257 89. To bring down the *interest-bearing* debt to Oct. 1 1900—which, as stated, was $1,023,478,860 on June 30 1900—we must add the $138,815,400 Consols of 1930, and deduct the following: from the Loan of 1908-1918 $28,930,300, from the Funded Loan of 1907, $85,169,000, from the Refunding Certificates $1,900, from the Loan of 1904, $24,712,800 and the remainder of the Funded Loan of 1891, $21,979,850 (a net deduction of $21,978,450), to reach the total of the interest-bearing debt April 1, 1901, which was $1,001,499,260.

For *later and future details of the debt, see the same* as issued every month in the CHRONICLE, the first or a later Saturday. We now add, *first*, references to and citations from the laws which are the authority for the debt as it stands to-day, including the new 2 per cent loan authorized March 14, 1900; *second*, the two tables on the next page, which exhibit all the particulars of the total debt of the United States on June 30 of each year from 1876 to 1900, and on April 1, 1901; *third*, the Pacific Railroad bonds, which are never included in the Treasury debt statements.

"FUNDED LOAN OF 1891" (Column 1) 4½ per cents, continued at 2 per cent. The bonds of this issue were issued in exchange for the 4½ per cent funded loan of 1891 by agreement between the Secretary of the Treasury and the holders, and were made redeemable at the pleasure of the Government. Amount issued $25,364,500, but May 18 all were called for redemption on August 18, when interest ceased.

"CONSOLS OF 1930."—(Column 9.) Bonds (2 per cent payable at the pleasure of the Government after 30 years) authorized in "Act to define and fix the standard of value," etc. (for copy of Act see CHRONICLE, March 3, 1900, page 411), for the purpose of refunding (1) outstanding United States bonds bearing interest at 5 per cent payable Feb. 1, 1904; (2) bonds bearing interest at 4 per cent payable July 1, 1907, and (3) bonds bearing interest at 3 per cent payable August 1, 1908 (the "ten-twenties of 1898"). For details of arrangement see Secretary Gage's circular with reference to the operations for carrying out the refunding provisions of the bill in CHRONICLE, March 17, 1900, page 509. Of these 2 per cents there were outstanding April 1, 1901, according to debt statement, $445,940,750.

"LOAN OF 1908-1918."—(Column 7.) The bonds included under this head are an issue of $200,000,000 3 per cents. They were authorized by Act of June 13 1898, and are known as the "War loan." The law provided that in allotting said bonds the individual subscriptions of the lowest amount must be first allotted. On the day the Act was signed a Treasury circular was issued (see circular in CHRONICLE of June 18 1898, page 1168,) inviting subscriptions for 32 days, from June 13 to July 14, for the amount of bonds stated, in both coupon and registered form, coupons in denominations of $20, $100, $500 and $1,000, and registered in denominations of same amounts, and also in $5,000 and $10,000, dated August 1 1898, redeemable in coin at the pleasure of the United States after ten years from date of issue, and due and payable August 1 1918. See circular for further details. Subscriptions reached the amount of $1,325,000,000. The amount now outstanding (April 1, 1901) is $99,912,940.

"FUNDED LOAN OF 1907" (Column 2) 4 per cents. The act of July 14, 1870, authorized the issue of 1,000 million dollars of bonds at 4 per cent, payable in coin of the present standard value, at the pleasure of the United States after thirty years; these bonds to be exempt from all taxes or duties of the United States, as well as from taxation in any form by or under State, municipal or local authority. Bonds to be sold at not less than par in coin, and proceeds to be applied to the redemption of outstanding 5-20s, par for par. Outstanding (April 1, 1901), $270,359,350.

"REFUNDING CERTIFICATES" (Column 3).—Act of February 26 1879 authorized the Secretary of the Treasury to issue in exchange for lawful money of the United States certificates of deposit of the denomination of ten dollars, bearing interest at the rate of 4 per cent, and convertible at any time, with accrued interest, into the 4 per cent bonds described in the Refunding act; the money so received to be applied only to the payment of the bonds bearing interest at a rate not less than 5 per cent. On March 12 1879 the issue of these certificates and their exchange into 4 per cent bonds were authorized; the certificates were to draw 4 per cent interest from April 1 1879 and were convertible in sums of $50 or its multiples. The amount issued at the close of the fiscal year (June 30 1879) was $39,308,110, but they had been converted so rapidly that there were outstanding at that date only $12,848,210. On October 31 1879 the entire authorization had been reached, the maximum amount of the issue being $40,012,750. Of these there were still outstanding on April 1, 1901, a total of $33,570.

"LOAN OF 1925."—(Column 5.) Sales of bonds included under this designation were effected (1) in February 1895 to the amount of $62,315,400 and (2) in February 1896 to the amount of $100,000,000. In a message to Congress under date of February 8, 1895 (published in the CHRONICLE February 9 1895, page 244), President Cleveland stated in substance that in pursuance of Section 3700 of the Revised Statues the details of an arrangement have this day been concluded whereby bonds authorized under the act of July 14 1875, payable in coin at the pleasure of the United States after the first day of Feb., 1925, with interest at the rate of 4 per cent per annum, to the amount of $62,315,400, are to be issued for the purchase of gold coin amounting to a sum slightly in excess of $65,000,000, to be delivered to the Treasury of the United States, which sum added to the gold now held in our reserve will so restore such reserve as to make it amount to something more than $100,000,000. Such a premium is to be allowed to the Government upon the bonds as to fix the rate of interest upon the amount of gold realized at 3¾ p. c. per annum. At least one-half of the gold to be obtained is to be supplied from abroad. Section 3700 of the Revised Statutes is as follows:

"Sec. 3700. The Secretary of the Treasury may purchase coin with any of the bonds or notes of the United States authorized by law at such rates and upon such terms as he may deem most advantageous to the public interest."

For a construction of the "Refunding Act of 1870" and of the "Resumption Act of 1875," see CHRONICLE, February 18 1893, page 265.

The issue in February 1896 was an ordinary offering, open to all bidders, of $100,000,000 of the same bonds as the foregoing—same in date, same in time of maturity, same in rate of interest and time of interest payments. Consequently both issues are called the "Loan of 1925," of which there are outstanding $162,315,400.

"LOAN OF 1904."—(Column 4.) The act of January 14 1875 authorizes the Secretary of the Treasury to use any surplus revenues from time to time in the Treasury not otherwise appropriated, and to issue, sell, dispose of, at not less than par in coin, either of the descriptions of bonds of the United States described in the act of July 14 1870 for the purpose of redeeming on and after January 1 1879 in coin, at the office of the Assistant Treasurer of the United States at New York, the outstanding legal tender notes when presented in sums of not less an fifty dollars. Under this authorization, and for the purpose mentioned, there were issued in Feb., 1894, payable in 10 years, $50,000,000 of 000 of 5 per cents and in Nov., 1894, there were issued $50,000,000 more for similar bonds for same purpose. Now outstanding $22,938,400.

In April, 1895, we gave a table showing the debt of the United States on the first day of July 1856, and every subsequent year. It is not necessary to repeat all those figures. We have determined on this occasion to begin our statement with 1876, as that year antedates all of the issues now outstanding, and yet carries the record sufficiently far back to show the nature and extent of the Government securities when the refunding operations of that period began. It has the advantage, too, of giving separate and distinct each issue of bonds now outstanding. The statement is subjoined.

NOTE 1.—The annual interest charge is computed upon the amount of outstanding principal at the close of the fiscal year, except in the case of April 1, for which the total is of that date, and is exclusive of interest charge on Pacific Railway bonds.

NOTE 2.—The figures for July 1 1879 were made up assuming pending funding operations to have been completed.

* NOTE 3.—Under the Act of March 14 1900 the Treasury Department has kept the gold Reserve Fund of $150,000,000 as a separate item, and not included it in the available cash balance. In the foregoing statement, however, we have continued to include the item so as not to embarrass comparison with previous years.

PACIFIC RAILROAD DEBT.—One other class of bonded debt must be referred to which has never been included in the total of Government debt—we mean the Pacific Railroad subsidy debt. To show the situation of this indebtedness we have to make compilations of our own, as the Treasury form comes short of indicating the existing situation. In the following we bring together the details respecting the issues to the Pacific Railroads, giving likewise in the statement the debt already paid and the balance due to the Government.

DEBT LIMITATIONS.—Constitutional and statutory limitations restricting municipal indebtedness have become quite a feature since the crisis of 1873. In the States where these limitations are provisions of the Constitution of course debts contracted in excess of such limitation are absolutely void. In Maine the amendment to the Constitution took effect January 2, 1878, and is in the following form and words: "Article XXII. Limitation of Municipal Indebtedness. No city or town "shall create any debt or liability which, singly or in the aggregate, "with previous debts or liabilities, shall exceed five per centum of the "last regular valuation of said city or town; *provided, however*, that "the adoption of this article shall not be construed as applying to any "fund received in trust by the said city or town, nor to any loan for the "purpose of renewing existing loans, or for war, or to temporary loans "to be paid out of money raised by taxation during the year in which "they are made."

SAVINGS BANKS' INVESTMENTS—POWERS AND RESTRICTIONS.—The provisions regulating the investments and loans of savings banks and institutions for savings in the State of Maine are contained in Public Laws 1895, Chapter 161, Public Laws 1893, Chapter 170, and Revised Statutes, Chapter 47, Sections 102 and 103.

HISTORY OF DEBT.—New Hampshire's debt history is very brief. This State has always been extremely conservative, and no bonds were issued until after the breaking out of the Civil War. In 1866 New Hampshire reported her funded indebtedness at $4,169,818, contracted exclusively for war purposes. June 1, 1869, the total outstanding was $3,213,962 22, against which the Treasurer reported an asset of $77,082 89. The situation of the State debt now is as below:

LOANS NAME AND PURPOSE.	Interest. P. Ct.	Interest. Payable.	Principal. When Due.	Principal. Outstand'g.

Of the trust funds held June 1, 1900, $80,000 bear 6 per cent interest and $677,807 35 bear 4 p. c. interest, no interest being paid on $1,963 71.

PAR VALUE OF BONDS.—The bonds of this State are in $500 and $1,000 pieces.

INTEREST is payable at the Commonwealth Bank of Boston and at State Treasurer's office.

TOTAL DEBT.—The *net* debt on June 1, 1900, was $1,118,798 94. The subjoined statement shows New Hampshire's *total* debt on the dates named. Assets June 1, 1900, were $793,994 05; floating debt, $7,721 93.

ASSESSED VALUATION.—The State's total assessed valuation (including taxable savings, bank savings and insurance capital) has been as follows:

Years.	Valuation.	Years.	Valuation.
1900	$295,562,474	1895	not tabulated
1899	277,024,165	1894	$269,683,779

CONSTITUTIONAL CONVENTION.—At the November (1900) election, it was voted to hold a convention to revise the State Constitution. The convention for this purpose will convene in the fall of 1902.

DEBT LIMITATION.—There is no restriction in the Constitution of New Hampshire upon the debt-making power of the people through the "General Court," *except* the following, which is the last clause of Article 5 of Part Second of that instrument.

Provided, That the General Court shall not authorize any town to loan or give its money or credit directly or indirectly for the benefit of any corporation having for its object a dividend of profits or in any way aid the same by taking its stocks or bonds.

The above is an amendment to the Constitution, which was ratified in 1877. The amendment would appear to be intended as a complete estoppel to municipal loaning of money or credit to railroad and industrial corporations. It is to be noticed, however, that by its terms the restriction does not specifically mention "cities," the words being "any town."

In addition to the foregoing is the "Municipal Bond Act of 1895." It tells in the matter of issuing bonds what a municipal corporation may do, what it must do, and what it cannot do. This law was given in full on pages 10 and 11 of our State and City Supplement for October, 1900.

POPULATION OF STATE.—Since 1800 the total population has been as follows.

1900	411,588	1860	326,073	1820	244,022
1890	376,530	1850	317,976	1810	214,460
1880	346,991	1840	284,574	1800	183,858
1870	318,300	1830	269,328	1790	141,885

In 1870-80 increase was 28,691, or 9·01 per cent; in 1880-90, 29,539, or 8·51 per cent, and in 1890-00, 35,058, or 9·31 per cent.

SAVINGS BANKS' INVESTMENTS—PRIVILEGES AND RESTRICTIONS.—The savings bank investment laws of New Hampshire were completely revised and materially altered in many respects at the Legislative session of 1901. The new law was approved by the Governor March 22, 1901, and went into effect on its passage. Its provisions are as follows:

AN ACT.

To Regulate and Limit the Investments of Savings Banks.

Be it enacted by the Senate and House of Representatives in General Court convened:

Section 1. On and after the passage of this Act, savings banks and savings departments of banking and trust companies shall make investment of their funds in the following classes of securities only:

1st. In notes secured by first mortgage of real estate situated in New Hampshire, but not over seventy per cent of the value of the property covered shall be so loaned, and not exceeding seventy per cent of the deposits shall be so invested.

2d. In notes secured by first mortgage of real estate situated outside of New Hampshire which is at the time improved, occupied, and productive, but not over 50 per cent of the value of the property covered shall be so loaned, and not exceeding 25 per cent of the deposits shall be so invested.

3d. In notes secured by collateral in which the bank is at liberty to invest of a value at least 10 per cent in excess of the face of the note. The amount of any one class of securities so taken as collateral, added to that which the bank may own at the time, shall not exceed the total limit of that class of security, but not exceeding 25 per cent of the deposits shall be so invested.

4th. In notes secured by collateral securities which are dealt in on the Stock Exchanges of Boston and New York, the Stock Exchange price of which shall at all times be at least 10 per cent in excess of the face of the note, while held by the bank, but not exceeding 25 per cent of of the deposits shall be so invested.

5th. In notes of individuals or corporations with two or more signers, or one or more indorsers, but not exceeding five per cent of the deposits shall be loaned any one person or corporation in this class of security, and not exceeding 25 per cent of the deposits shall be so invested.

6th. In the public funds of the United States, or those for which the faith of the United States is pledged to provide for the payment of the interest and principal.

7th. In the bonds or notes of this State, or of any county, city, town, precinct, or district of this State.

8th. In the authorized bonds or notes of any State or Territory of the United States, and in the bonds or notes of any city of the States of Maine, Vermont, Massachusetts, Rhode Island, Connecticut, or New York, whose net indebtedness does not exceed five per cent of the last preceding valuation of the property therein for taxation, or of any county or town in said States whose net indebtedness does not exceed three per cent of such valuation.

9th. In the authorized bonds of any county, city, town, school district, or other municipal corporation of any other of the United States or Territories whose net indebtedness at the time of such investment does not exceed 5 per cent of the last preceding valuation of the property therein for taxation; and in the authorized bonds of any city of 100,000 inhabitants of any of said States whose net indebtedness does not exceed 7 per cent of the last preceding valuation of the property therein for taxation. The term "net indebtedness" shall be construed to denote the indebtedness of any city, town, or other municipal corporation, omitting the debt created for supplying the inhabitants with water and deducting the amount of any sinking fund available for the payment of the municipal indebtedness. *Provided, however,* that such bonds shall not have been issued in aid of railroads or for special assessment purposes. *Provided, also,* that the bonds of any county, city, or town, of less than 10,000 inhabitants, or of any school district or other municipal corporation of less than 2,000 inhabitants in any State or Territory other than those named in paragraph 8 of section 1 of this Act shall not be authorized investments *Provided, further,* that such bonds are issued by municipalities that are permitted by law to levy taxes sufficient to pay the interest and to provide sinking funds for their debt; otherwise such bonds shall not be authorized investments. And *provided, further,* that the bonds of any such county, city, town, school district, or other municipal corporation of any State or Territory, except in the States named in paragraph 8 of section 1 of this Act, which does not have a constitutional provision limiting the indebtedness of counties, cities, towns, school districts, or other municipal corporations therein shall not be legal investments; but not exceeding 50 per cent of the deposits shall be so invested.

10th. In the bonds or notes of any railroad company, except street railways, incorporated under the laws of this State, whose road is located wholly or in part in the same, but not exceeding 25 per cent of the deposits shall be so invested.

11th. 12th. In the bonds of any railroad company, except street railways, incorporated under the authority of any of the United States or Territories, which is in possession of and operating its own road, and has earned and paid regular dividends of not less than four per cent per annum on its capital stock for the three years next preceding such investment; *provided* such capital stock on which it earns and pays dividends equals in amount one-third of the entire bonded indebtedness of said road; or in the bonds guaranteed or assumed by such railroad; but not exceeding twenty-five per cent of the deposits shall be so invested.

13th. In the first mortgage bonds of corporations of this State, except street railways, located and doing business therein, whose net indebtedness at the time of such investment does not exceed its capital stock actually paid in and remaining unimpaired, but not exceding ten per cent of the deposits shall be so invested.

16th. The tax rate for 1901 is $1·75 per $1,000, which includes State schoo and State highway taxes of 50 cents each per $1,000, collected and re-distributed to towns on a basis of the number of schools and road mileage.

DEBT LIMITATIONS.—There appears to be nothing in the Constitution or in the Statutes of Vermont providing a general limit to the debt-making power of municipalities. Whatever in each case the Legislature authorizes, the city, town, county or other civil division can issue. Of course the purpose of the improvement must be of a public character. Railroad subscriptions by towns are authorized by Section 2760, chapter 132 of the Revised Statutes, the section being as follows:

SECTION 2760. A town may aid in the construction of a railroad organized under the general law by issuing bonds to aid such railroad, by taking capital stock therein, or in such other manner as it directs, but the liability so assumed shall not exceed eight times the grand list of the town at the time. Such aid shall be given in the way provided in this chapter.

It will be noticed that this section contains a limit to the power granted of making subscriptions in aid of railroads—to wit: That the subscriptions shall not exceed eight times "the grand list." To evolve the "grand list" in Vermont, the authorities first prepare a schedule of all the property, real and personal, of each individual, with valuations entered at their real value in money, deducting debts owing; after this is done "the grand list" is made up by taking one per cent of that amount, according to Section 317, Chapter 25, of the Revised Statutes, which is as follows: "All taxable property shall be set in the list at one "per cent of its value in money on the first day of April of the year "in which the list is made."

Following Section 2760, above cited, which authorizes subscriptions in aid of railroads, are other sections describing the method in which these subscriptions must be made, by calling a town meeting, voting, &c., &c. Then follows Section 2766, authorizing the issue of bonds.

SECTION 2766. Such town may issue bonds, with coupons payable semi-annually, at a rate of interest not exceeding seven per cent, to aid such road.

The only other *general* authority granted for the issue of bonds by municipal corporations in Vermont is that given for refunding outstanding bonds and notes. The Sections which grant this power are Sections 2769, 2775 and 2776, Chapter 132 of the Revised Statutes, Sections 2769 and 2776 are as follows:

SECTION 2769. A town which has outstanding and unpaid negotiable notes or bonds, issued to pay for stock subscribed to a railroad company, under any act of the general assembly, may issue other negotiable notes or bonds to pay or retire such outstanding notes or bonds.

SECTION 2,775. A town having outstanding and unpaid orders, notes, bonds or coupons, issued under any act of the Legislature, for the purpose of the erection of public buildings, or in aid of public improvements, or for the payment of soldiers' bounties, may issue other negotiable notes or bonds for the purpose of retiring the outstanding orders, notes, bonds and coupons, in the same manner that it may issue new notes or bonds to pay or retire outstanding notes or bonds issued in aid of a railroad; and the powers, restrictions, duties and liabilities of the town and town officers in the matter shall be the same as is provided by law in the case of the refunding by a town of town bonds issued in aid of a railroad; and the interest on such new notes or bonds shall be provided for in the same manner.

By Section 2776 municipal corporations other than towns have the same refunding powers granted them which are conferred upon towns by the two sections last above cited.

The only other section which we need quote is Section 2751 of Chapter 130, which names the objects for which towns may vote money. If money is appropriated for any other object, the Charter or a special statute must be looked to for the authority.

SECTION 2751.—Towns in town meetings may vote such sums of money as they judge necessary for the support of the poor; for laying out and repairing highways; for the prosecution and defense of the common rights and interests of the inhabitants, and for other necessary incidental town expenses.

POPULATION OF STATE.—According to the United States Census the population of Vermont has been as follows:

1900	343,641	1860	315,098	1820	235,966
1890	332,422	1850	314,120	1810	217,895
1880	332,286	1840	291,948	1800	154,465
1870	330,551	1830	280,652	1790	85,425

SAVINGS BANKS INVESTMENTS—PRIVILEGES AND RESTRICTIONS.—The provisions of law relating to savings banks are found in Chapter 174 of the Vermont statutes, Sections 4066 to 4131 inclusive, as amended from time to time. The first section having reference to investments is Section 4096, which treats of *real estate mortgages.* It authorizes the investment of 70 p.c. of the assets in such mortgages, one-sixth at least of which "shall be upon real estate in this State"—that is Vermont. A proviso adds that only 50 per cent of the assets may be invested in mortgages on real estate outside of Vermont. Sections 4097 and 4098 relate only to obtaining and paying for insurance. Section 4099 is as follows, and has reference to investment on *personal security.*

SECTION 4099—No loans or investments on personal security shall be made except upon at least two approved names, not less than two of whom reside in this State or within fifty miles of the institution making such investment, and such personal loans or investments shall not be for a longer time than one year; and not more than one-third of the assets of a savings bank, savings institution or trust company shall be invested in personal securities.

Section 4100 only covers a single point; that is to say it restricts to *five* per cent of the deposits the amount which a savings bank may invest in the lot and building for the transaction of its business, and adds that a revenue may be derived from portions of the building not required for the bank's use. The next section (Section 4101) covers the most important of the provisions relating to investments that are contained in the law. We give the section in full below. The separation into paragraphs and the figures in parenthesis which number and begin the paragraphs are our own.

SECTION 4101—With the foregoing exceptions, the moneys deposited in Savings Banks, Savings Institutions and Trust Companies, and the income therefrom, shall be invested only as follows:

(1.) In the public funds of the United States, or public funds for the payment of principal and interest of which the faith of the United States is pledged;

(2.) In the bonds or notes of the counties, cities, towns, villages and school districts of the New England States, New York, Pennsylvania, Ohio, Michigan, Indiana, Illinois and Iowa;

(3.) In the stock of any national bank in the New England States, New York and the cities of Detroit, Chicago, St. Paul and Minneapolis; in the stock of any banking association or trust company incorporated under the authority of and located in this State;

(4.) In the municipal bonds, not issued in aid of railroads, of counties, cities and towns of five thousand or more inhabitants in the States of New Jersey, Wisconsin, Minnesota and Missouri, and in counties, cities and towns of ten thousand or more inhabitants in the States of Kansas, Nebraska, North Dakota, South Dakota, Oregon and Washington, but no investment shall be made in any of the counties, cities or towns in the States above named, except in cities of fifty thousand or more inhabitants, where the municipal indebtedness of such county, city or town *exceeds five per cent* of its assessed valuation, and when not issued in aid of railroads;

(5.) In the school bonds and independent school district bonds of New Jersey, Wisconsin, Minnesota and Missouri; and in the school bonds and independent school district bonds of school districts of two thousand or more inhabitants in the States of Kansas, Nebraska, North Dakota, South Dakota, Oregon and Washington, where the amount of such bonds issued does not exceed five per cent of the assessed valuation of the respective cities, towns and school districts.

(6.) In the public funds of any of the States named in this section; in notes with a pledge of any of the aforesaid securities, including deposit books or deposit receipts, issued by a savings bank, savings institution or trust company or banking association located in this State, as collateral, such notes not to exceed the par or market value of such security;

(7.) But no savings bank, savings institution or trust company shall hold, by way of investment or as security for loans, more than ten per cent of the capital stock of any one bank, nor invest more than ten per cent of its deposits, nor more than thirty-five thousand dollars in the capital stock of any one bank; and no such investments shall be made in the capital stock of any such banks, owned or loaned upon, to exceed in the aggregate one-fourth of the deposits of any savings bank, savings institution or trust company.

The amount of loan which can be made to one person or corporation, &c., is restricted by the next section, and we give it in full. It is as follows:

SECTION 4102—No savings bank, savings institution or trust company shall loan to any one person, firm or corporation, or the individual members thereof, more than five per cent of its deposits, nor more than thirty thousand dollars; nor shall such loan on personal security exceed ten thousand dollars.

We also give Section 4106 in full. It confers authority upon savings banks to make deposits on call in banks and trust companies in certain States and cities, and is as follows.

SECTION 4106.—The words "trust company" in this chapter shall be construed to include savings banks and trust companies. A savings bank, savings institution and trust company may deposit on call in banks, banking associations or trust companies in this State, or in the cities of New York, Boston or Chicago, or in national banks in the cities of St. Paul, Minneapolis and Kansas City, with or without interest, as may be agreed upon, sums not exceeding in the aggregate twenty per cent of the assets of such savings bank, savings institution or trust company.

Section 4107 enacts that savings banks may hold real estate acquired on foreclosure or otherwise taken to secure debt, but it must be sold within five years, &c. Section 4108 authorizes savings banks to demand and receive on loans 6 per cent interest.

DEBT LIMITATIONS.—There seems to be no provision in the Constitution of Massachusetts limiting the power of the Legislature to create State indebtedness, or limiting its power to authorize municipal indebtedness. Statutes general and special have, however, been passed on this subject with respect to Cities and Towns.

First among these Statutes needing mention we have Chapter 29 of the Revised or "Public Statutes." The important sections to be cited

contained in Chapter 29 are as follows. We give only the substance of the sections, not the words.

SECTION 1—Provides that cities and towns shall not incur debt except in the manner and within the limitations prescribed in this chapter.

SECTION 2—Provides (as a preliminary for determining whether the limitation fixed by Section 4 has been reached by any municipality) that the water debt and the sinking funds shall be deducted from the total debt.

SECTION 3—Provides that the first 17 sections of chapter 29 shall not apply to debts incurred in aid of railroads, to water scrip issued under special statutes, or to indebtedness for a fire district.

SECTION 4—Provides that no city or town except as provided in the following section shall become indebted in an amount *which exceeds 3 per cent on the last preceding valuation* [but amended as noted below.]

SECTION 5—Provides that cities and towns which were indebted on the 13th day of June, 1875, to an amount not less than 2 per cent on valuation for that year may "increase such indebtedness to the extent "of an additional one per cent on that valuation and no more."

SECTION 6—Provides that cities, &c., "may by *ordinary vote* incur debts for tempory loans" in anticipation of the year's taxes and of the year's taxes next ensuing.

SECTION 7—Provides that other debts than those referred to in section 6 shall be incurred only by a vote of two-thirds of the voters present at a town meeting, of two-thirds of all the members of each branch of the city council, and approved by the Mayor; or if the Mayor disapproves, by another like vote after notice of such disapproval.

SECTION 8—Provides that debts incurred for water must be payable within 30 years; in constructing sewers within 20 years; all other debts within 10 years.

SECTIONS 9 to 17 inclusive, contain interesting provisions relating to sinking funds and other allied matters.

SECTION 18—Provides that any city which at a meeting of its voters has accepted by a two-thirds vote any act to supply said city with water, may by a vote of a majority of the members of each branch of the city council contract debts and issue bonds for the purpose.

SECTION 19—Provides that towns, &c., shall not increase their debt by subscriptions in aid of railroads beyond 3 per cent of valuation; *but the limitation* of this section shall not apply to temporary loans mentioned in Section 6

SECTIONS 20 to 23, which are the final ones of Chapter 29, have no reference to the subject we are discussing and need not be cited.

As the reader has seen, the foregoing (Section 4, Chapter 29) fixes the *general* debt limitation for cities and towns *at 3 per cent.*

This general limitation was lowered by a later law. The provision is found in Chapter 312, Section 2 of the Laws of 1885, which provision reduces the general debt limitation of cities from 3 per cent to 2½ *per cent* on the average valuation for the preceding three years. Worcester, Lynn, Gloucester and Brockton are in the same Section exempted from the operation of the Section until January 1, 1889—later than 1889 the only exemptions we find in the Statutes are special in their purpose, not general. In 1893, however, authority was given for an addition of ½ per cent, to provide public playgrounds—that is to say, under Chapter 225, Laws of 1893, any town or city (except Boston) may incur an indebtedness of ½% of the assessed valuation beyond the limit of indebtedness for playgrounds

The temporary loans provision, as it appears above in Section 6 (Chapter 29), is also changed by Section 4, Chapter 312, by omitting "and of the year next ensuing;" so that at present cities and towns by *ordinary vote* can incur debts for temporary loans in anticipation of the taxes of the year *only* in which such debts are incurred.

Temporary loans (for a term not exceeding one year) in anticipation of money to be derived from an issue of bonds or other form of indebtedness, duly authorized, are provided for by a statute approved June 14, 1898. The same Act states that the time within which said bonds, etc., shall become due shall not be extended by reason of said temporary loan.

The foregoing statements cover all the material facts general in their application passed with respect to debt limitation. In addition to these General Provisions there are various Special Laws which contain *exceptions* to the general law as to debt limitation, which apply to Cambridge, Lynn, Newburyport, Waltham, Worcester, &c., &c.

Boston was formerly subject to a special statute (Chapter 178 of the Laws of 1885) limiting its debt to 2 per cent, but this was repealed by Chapter 399 of the Acts of 1900, and that city is now subject to Chapter 312 of the Laws of 1885 as above.

SAVINGS BANK INVESTMENTS—POWERS AND RESTRICTIONS.—The provisions regulating the investments and loans of savings banks and institutions for savings in Massachusetts are contained in Section 21, Chapter 317, acts of 1894, and amendments thereof. All the provisions have been compiled by the Commissioners of Savings Banks, and we cannot do better than to give their compilation, which we do below in full. In 1899 the authority to purchase railroad bonds was materially broadened. The amendment is included in the provisions below.

Massachusetts savings bank deposits and the income derived therefrom shall be invested only in manner following, to-wit:

Public Funds.—*Aggregate of Investments Unlimited.*—

DEBT AND TAX LIMITATIONS.—Taxes in Boston are limited by Chapter 399 of the Acts of 1900 as follows:

SECTION 1. The taxes assessed on property, exclusive of the State tax, county tax and sums required by law to be raised on account of the city debt, shall not exceed in any year in the city of Boston ten and one-half dollars, and in any other city twelve dollars, on every one thousand dollars of the average of the assessors' valuations of the taxable property therein for the preceding three years, the valuation for each year being first reduced by the amount of all abatements allowed thereon previous to the thirty-first day of December in the year preceding said assessment and any order or appropriation requiring a larger assessment than is herein limited shall be void.

SECTION 2. Chapter one hundred and seventy-eight of the Acts of the year eighteen hundred and eighty-five and Chapter two hundred and eighty one of the Acts of the year eighteen hundred and eighty-seven are hereby repealed.

SECTION 3. This Act shall take effect upon its passage. [*Approved June 26, 1900.*]

The new law, in repealing Chapter 178 of the Laws of 1885, repealed a special Act limiting the indebtedness of the City of Boston to 2 per cent of the assessed valuation, etc, etc. Boston consequently is now subject to Section 2, Chapter 312, Laws of 1885, which places the debt limitation at 2½ per cent of the average assessors' valuations of the taxable property for the preceding three years. Reference to this 1885 law will be found in the debt limitations for the State of Massachusetts. See also CHRONICLE of August 4, 1900, page 250.

The foregoing limitation is of course exclusive of debts created for water supply, and further exceptions have been made from year to year by different legislatures, authorizing bonds outside of the debt limit for various purposes, especially enumerated.

It is proper to state that under Chapter 93, Acts of 1891, the city is authorized to *anticipate* its authority to borrow money within its debt limit for any current municipal year.

As the result of an amendment to the Constitution which was adopted at the election held in November, 1900, the legislature now meets annually the first Tuesday in January. There is no limit as to the length of session other than that compensation of the legislators is limited to sixty days attendance in any calendar year.

HISTORY OF DEBT.—For a brief history of the Rhode Island State debt see STATE AND CITY SUPPLEMENT of April 13, 1895, page 33. The bonds outstanding at present are described as follows:

INTEREST is payable in Providence at the Rhode Island Hospital Trust Company on all loans except that due in 1938, which is payable at the Industrial Trust Co., Providence.

TOTAL DEBT, SINKING FUNDS ETC.—

January 1—	1901.	1900.	1899.	1898.
Total funded debt....	$2,300,000	$2,300,000	$2,300,000	$1,500,000
Sinking funds.....	338,036	295,752	255,089	209,422
Net debt.....	$1,961,964	$2,400,248	$2,044,911	$1,290,578

The sinking fund is largely invested in city, town and district bonds and notes, and it is to receive $82,000 yearly. At the general election Nov., 1900, the issuance of $700,000 bonds for the completion of the new State House was voted. The Legislature has authorized these bonds and they are advertised for sale on April 18.

TAX VALUATION.—The assessed valuation of real estate in Rhode Island in 1900 was $320,318,384; personal property, $87,086,388; total $407,404,772. Tax rate (per $1,000) in 1900 was $1·80.

POPULATION OF STATE.—

1900	428,556	1860	174,620	1820	83,015
1890	345,506	1850	147,545	1810	76,931
1880	276,531	1840	108,830	1800	69,122
1870	217,353	1830	97,199	1790	68,825

MUNICIPAL INDEBTEDNESS LIMITATIONS.—There is nothing in the Constitution of Rhode Island limiting the amount of city debts. The following, however, are two sections taken from Title 7, Chapter 36 (page 157) of the Revised Statutes of the State of 1896. Since 1878 these provisions have been in force, and consequently 3 per cent of the taxable property has been the limit of the power of each town (which includes city) to create debt.

SECTION 20. "The outstanding notes, bonds and contracts of towns shall be paid and be fulfilled according to the tenor thereof, and all public works now authorized to be prosecuted shall be prosecuted, and all indebtedness now authorized to be incurred on account thereof may be incurred according to the tenor of the authority therefor.

SECTION 21. No town shall, *without special statutory authority therefor*, incur any debt in excess of three per centum of the taxable property of such town, including the indebtedness of such town on the tenth day of April, one thousand eight hundred seventy-eight, but the giving of a new note or bond, for a pre-existing debt, or for money borrowed and applied to the payment of such pre-existing debt, is excepted from the provisions of this section, and the amount of any sinking fund shall be deducted in computing such indebtedness."

A proposed new constitution, containing certain limitations as to State and other debts, failed of adoption at the November election in 1898, was again submitted to popular vote in 1899 and again defeated.

SAVINGS BANK INVESTMENTS AND RESTRICTIONS.—In the Revised Statutes of Rhode Island (which were revised in 1896) Sections 54, 55, 56, etc., of Chapter 178, Title 19 (on page 548), will be found the provisions of law with reference to Savings Bank Investments. Section 54, which recites in detail the stocks, bonds, etc., these institutions are allowed to put their money in is as follows:

SECTION 54. Institutions for savings shall invest their receipts—
(1) In public stocks or bonds of any State or of the United States,
(2) Or in any bank stock, or in notes or bonds of any town or city,
(3) Or in notes of any school district or fire district in any New England State,
(4) Or in such corporate stocks or bonds as they may deem safe and secure,
(5) Or they may discount notes, bonds or drafts of individuals or corporations, with two other responsible endorsers, sureties or guarantors,
(6) Or the notes, bonds or drafts of individuals or corporations secured by the public notes, stocks or bonds of any State of the United States, or of any town or city or of any school district or fire district in any New England State, or by the stock or bonds of any corporation which may be deemed to be safe, or by mortgage on real estate.

Concerning Sections 55 and 56, the first appears to give savings institutions quite extensive powers as to making and keeping deposits in commercial banks. When so kept, however, they are to be kept "payable on demand whether drawing interest or not." The two sections are subjoined.

SECTION 55.—No such institution shall have an amount exceeding one-half of its receipts invested in notes, bonds or drafts of individuals or corporations, unless secured by some public notes, bonds or stocks as aforesaid, or by mortgage on real estate: but the preceding section shall not be so construed as to forbid any such institution from placing and holding on deposit in any bank such reasonable amount of their receipts as is customary and they may deem proper, payable on demand, whether drawing interest or not.

SECTION 56.—No money shall be loaned by any institution for savings to any trustee, director or other officer of such institution.

For the other provisions of the law as they now are we would refer our readers to the Revised Statutes of 1896.

DEBT LIMITATION.—The Constitution of Connecticut contains but a single provision restricting the debt-making power. The provision is Article 25, adopted as an amendment in 1877, and is as follows:

No County, City, Town, Borough or other Municipality, shall ever subscribe to the capital stock of any railroad corporation, or become the purchaser of the bonds, or make donation to, or loan its credit in aid of, any such corporation; but nothing herein contained shall affect the validity of any bonds or debts incurred under existing laws, nor be construed to prohibit the General Assembly from authorizing any Town or City to protect by additional appropiations of money or credit any railroad debt contracted prior to the adoption of this amendment.

The foregoing is explicit and comprehensive, covering every municipality. There are no general restrictions in the Revised Statutes; whatever restrictions have been made from time to time are contained in enabling acts and in city charters.

As to towns, we notice that there is a general law granting them unlimited power to issue bonds. According to section 140, chapter 23 of the Revised Statutes, "when any town shall have made appropriations "or incurred debts, or shall hereafter make appropriations or incur "debts exceeding ten thousand dollars, it may issue bonds, either regis- "tered or with coupons attached, or other obligations, payable at such "times and at such annual rate of interest not exceeding 6 per cent, "payable annually or semi-annually, as it shall determine," &c. Cities have had no such general authority conferred upon them.

Exemption from Taxation nas been accorded by general statute to certain bonds issued by cities and towns to aid in the construction of railroads; and this exemption has been extended to new bonds issued for the purpose of redeeming or providing a fund to redeem the railroad aid bonds above referred to. This exemption is found in Section 3,820 Chapter 241 of the Revised Statutes (last clause of Section), and the bonds there named are those "issued by any town or city in aid of the "construction of the railroads of the Connecticut Western Railroad "Company, the New Haven Middletown & Willimantic Railroad Com- "pany, the Shepaug Valley Railroad Company, the Connecticut Valley "Railroad Co., the Connecticut Central Railroad Company, or either of "them." All railroads which are in whole or in part in the State are taxed by the State under Section 3920, Chapter 244 of the Revised Statutes, so that the tax on these bonds is paid by the railroads.

Exemption from tax of new bonds issued to redeem or to provide a fund to redeem the railroad aid bonds, or to redeem or to provide a fund to redeem any reissue of the same, is conferred fully by an act approved June 19, 1889, and found in the "Public Acts" for that year.

POPULATION OF STATE.—Population has been as follows:

SAVINGS BANKS INVESTMENTS—PRIVILEGES AND RESTRICTIONS.—At the session in 1899 material changes were made in the provisions regulating the investment of the deposits of the savings banks of Connecticut. We give below the law as thus amended. The Act of 1899 is entitled "An Act concerning Investments of Savings Banks", and is as follows. The separation into paragraphs and the figures in brackets which number and begin the paragraphs we have inserted so that those who need to refer to or use any particular portion of the section can more readily find the part desired; otherwise we give the section as it reads and was passed.

[*A measure is now—April 8, 1901—before the Legislature enlarging the scope of investments in railroad bonds. Should this bill become a law, the fact will be recorded and the measure printed in our weekly* Chronicle.]

Section 1800 of the General Statutes, as amended by chapter CCXXIX of the Public Acts of 1893 and by chapter CCXVII of the Public Acts of 1897 is hereby amended to read as follows: Savings banks may invest—

(1) Not exceeding twenty per centum of their deposits and surplus in notes secured by the pledge of stocks or bonds as collateral security: *provided*, said stocks or bonds shall have paid dividends or interest of not less than three per centum per annum during the two years next preceding that in which the respective loan is made; or by the pledge of any stocks, bonds, or other obligations which, under the provisions of this act, can be purchased by savings banks; and may invest not exceeding twenty per centum of their deposits and surplus in notes, each of which shall be the joint and several obligation of two or more parties, all residents of this State.

(2) And may invest in the bonds of the United States, the District of Columbia, any of the New England States, or any of the States of New York, New Jersey, Pennsylvania, Delaware, Maryland, Ohio, Kentucky, Michigan, Indiana, Illinois, Iowa, Wisconsin, Minnesota, Missouri, Nebraska, Kansas, California, Colorado, and Oregon;

(3) In the bonds of any city in the New England States, or in the State of New York; of Newark, Paterson and Trenton in the State of New Jersey; of Philadelphia in the State of Pennsylvania; of Cincinnati, Cleveland, Columbus, Dayton, and Toledo in the State of Ohio; of Louisville in the State of Kentucky; of Detroit in the State of Michigan; of Chicago in the State of Illinois; of Milwaukee in the State of Wisconsin; of St. Louis in the State of Missouri; of Omaha in the State of Nebraska:

(4) Or in the obligations of any of the counties, towns, cities, boroughs, and school districts in this State,

(5) Or in the capital stock of any bank or trust company located in this State, or in the city of New York in the State of New York, or in Boston in the State of Massachusetts:

(6) Or in the bonds of any other incorporated city located in any of the States mentioned in this act, having not less than twenty thousand inhabitants, as ascertained by the United States or State census, or any municipal census taken by authority of the State next preceding such investment; *provided*, the amount of the bonds of said city, including the issue in which such investment is made and its proportion (based on the valuations contained in the assessment for taxation next preceding such investment) of the county and town debt, after deducting the amount of its water debt, and the negotiable securities in the sinking funds which are available for payment of its bonds, does not exceed seven per centum of the valuation of property in said city as assessed for taxation next preceding such investment; *provided, always*, that the State or city issuing said bonds has not defaulted payment of any of its funded indebtedness or interest thereon within fifteen years next preceding the purchase of such bonds by the savings bank; but this act shall not be held to authorize the investment of any funds in any "special assessment bonds" or "improvement bonds", so called, which are not direct and primary obligations of the city issuing the same;

(7) Or in the bonds of any railroad company organized under the laws of any of the States mentioned in this Act, and which bonds are secured by a first mortgage (as the only mortgage security) given by said railroad company upon some portion of the railroad owned by it, or given by a railroad company (a majority of the capital stock in which is owned by the railroad company issuing said bonds), upon some portion of the railroad owned by it but leased or operated by the railroad company issuing said bonds, and which portion of said railroad in either case shall be located wholly or in part in one or more of the States mentioned in this Act, provided the entire railroad of said company is located wholly within the United States; or in the consolidated bonds of any railroad company incorporated by this State and authorized to issue such bonds to retire the entire funded debt of said company; *provided*, that in every case the railroad company in the bonds of which an investment is made shall have paid each year, for a period of not less than five years next previous to such investment, in addition to the interest on its funded indebtedness, dividends of not less than four per centum per annum upon its entire capital stock outstanding; and *provided, further*, that said outstanding capital stock at the time of such investment equals or exceeds in amount one-third of the entire outstanding issue of said bonds; also in the bonds of the following-named railroad corporations, viz:

Boston & Albany Railroad Company,
Boston & Lowell Railroad Company,
Boston & Maine Railroad Company,
Concord & Montreal Railroad Company,
Fitchburg Railroad Company,
Harlem River & Port Chester Railroad Company,
Maine Central Railroad Company,
New England Railroad Company,
New York & New England Railroad Company,
New York, New Haven & Hartford Railroad Company,
Old Colony Railroad Company,

and in any general or consolidated mortgage bonds issued by any of the following-named railroad corporations to retire all of the outstanding prior mortgage bonds secured upon the property covered by said general or consolidated mortgage:—

Chicago & North Western Railway Company,
Chicago, Burlington & Quincy Railroad Company,
Chicago, Milwaukee & St. Paul Railway Company,
Chicago, Rock Island & Pacific Railway Company,
Chicago & Alton Railroad Company,
Cleveland & Pittsburg Railroad Company,
Lake Shore & Michigan Southern Railway Company,
Michigan Central Railroad Company,
Morris & Essex Railroad Company,
New York Central & Hudson River Railroad Company,
Pennsylvania Railroad Company,
St. Paul, Minneapolis & Manitoba Railway Company,
Eastern Railway of Minnesota, Northern Division,

and in the mortgage bonds hitherto issued which the said consolidated or general mortgage bonds are to retire at maturity; *provided*, that at no time within five years next preceding the date of such investment shall such railroad corporation have failed regularly and punctually to pay the principal at maturity, (or as extended,) and interest of all its mortgage indebtedness, and in addition thereto regularly and punctually to have paid dividends upon all its outstanding capital stock during the preceding five years; further, that at the date of every such dividend the outstanding capital stock of such railroad corporation shall have been equal to at least one-third of the total mortgage indebtedness of such railroad corporation, including all bonds issued or to be issued under any mortgage securing any bond in which such investment shall be made, but this Act shall not be held to authorize any investment in the bonds of any corporation operating its railroad exclusively by any means other than steam as a motive power, or in the bonds of any street railroad company.

(8) All other investments shall consist of deposits in incorporated banks or trust companies located in this State or in the States of New York, Massachusetts, or Rhode Island.

(9) Or of loans secured by mortgage on unincumbered real estate situated in this State, worth double the amount of the loan secured thereon, provided that any savings bank in the towns of Putnam, Brooklyn and Killingly may loan on land located in the County of Providence in the State of Rhode Island; any savings bank in the town of Ridgefield may loan on land located in the County of Westchester in the State of New York; any savings bank in the town of Enfield or in the town of Stafford may loan on land located in the County of Hampden in the State of Massachusetts; and any savings bank in the town of Stonington may loan on land located in the County of Washington in the State of Rhode Island.

It would seem according to the foregoing amendment of section 1800 that only forty per cent of the deposits and surplus of any savings bank may be employed on personal security, but that no limit is placed upon the amount which may be invested in the other securities mentioned in the section.

The subjoined sections, 1803, 1804, 1805 and 1806, provide certain *restrictions* with reference to loans—section 1803 restricting loans on Mortgage Security to Manufacturing Corporations and Ecclesiastical Societies; section 1804 restricting amount of loans to one party on personal security; section 1805 forbidding loans on single names.

SEC. 1803. No loan shall be made by any savings bank to any corporation or association or ecclesiastical society, secured by mortgage upon their property, unless the same shall be accompanied by the individual guarantee of some responsible party or parties, or by other collateral security of equal value to the amount of the sum loaned, and the directors or trustees of any such bank consenting to any loan contrary to the provisions of this section shall be held individually responsible to the full extent of such loan.

SEC. 1804. No savings bank having more than twenty-five thousand dollars deposits shall loan on personal security to any one person, company, or interest, more than three per cent of its deposits at the time of making such loan.

SEC. 1805. No savings bank shall buy, or lend any money upon, any obligation on which only one person or firm shall be holden, without taking additional security for the same equivalent to the guaranty or indorsement of some other responsible party.

Besides the ordinary safeguards which are in all savings bank laws there is one of no little importance that ought to aid materially in preventing incautious loans. We refer to the provision below.

SEC. 1806.—When any loan or investment is made by any savings bank, the names of the directors or trustees consenting thereto shall be entered upon the records of said bank, and said record shall be at all times open to the inspection of the corporators and auditors of said bank and the Bank Commissioners, and be *prima facie* evidence of the truth of the statements therein contained.

TRUST FUNDS—HOW LOANED OR INVESTED—We find in Section 495 of the General Statutes the following liberal provisions providing that trust funds may be loaned or invested in the same securities savings banks are authorized to invest in.

SEC. 495.—Trust funds, unless it is otherwise provided in the instrument creating the trust, may be loaned on the security of mortgages on unencumbered real estate in this State, double in value the amount loaned, or may be invested in such mortgages or in the bonds or loans of this State, or of any town, city, or borough of this State, or in any bonds, stocks, or other securities which the savings banks in this State are or may be authorized by law to invest in, or may be deposited in savings banks incorporated by this State.

CITIES, COUNTIES AND TOWNS IN THE STATE OF CONNECTICUT

NOTE.—*For debts of minor civil divisions not found among the statements given below, see "Additional Statements" at the end of this State.*

The relation which the towns, cities and boroughs of this State bear to one another is peculiar, and requires a word of explanation. The State is divided into eight counties, and these counties are made up of towns, numbering in the aggregate 167. The towns are the civil unit, and on the assessed valuation (which is called the "Grand List of each town") is levied the tax for State purposes as well as the tax for town expenditures. Within the town is often situated a city or a borough, or both, all of which may at the same time have bonds outstanding. There are ten cities, each with one exception bearing the same name as the town in which it lies. Of late several towns and cities whose limits were about identical have been consolidated and the outstanding bonds of both town and city are reported together without distinction. This is the case with the city and town of Hartford, which previous to April, 1896, reported their debts separately. The city and town of New London have been consolidated and also Bridgeport city and town. On December 7, 1897, city, town and school district of New Haven were likewise consolidated.

The borough stands in about the same relation to the town as does the city. The grand list as determined for the town is used by both the city and the borough in levying taxes, the city, for instance, putting a tax of its own on its share of the total grand list of the town. This tax is additional to the town tax. In some instances the schools are in the charge of school districts, which also are empowered to issue bonds and to levy a tax, so that to cover the total tax paid by a city it is necessary to take into account the State, town, city and school district levies. In the statements which follow we give under one heading the town and city, wherever they bear the same name, for though distinct corporations, their debts are to a greater or less extent the debts of a single community.

AGGREGATE MUNICIPAL INDEBTEDNESS.

The total indebtedness of all the towns, cities, boroughs and counties in the State was in 1900 $27,624 827 42. In the following table we show the funded indebtedness, the floating debt and the total indebtedness of all the civil divisions of the State at quadrennial periods:

Legislature meets annually the first Wednesday in January, and length of sessions is not limited.

HISTORY OF DEBT.—The historical details of New York's State debt from 1817 to 1894 will be found in the STATE AND CITY SUPPLEMENT of April, 1894, page 41.

During a period of eleven years ending in 1893 the State debt was paid at the average of $1,000,000 per year, and practically wiped out.

At the November election in 1895 the proposition to issue bonds of the State to the amount of $9,000,000, for the purpose of enlarging and improving the Erie Canal, the Champlain Canal, and the Oswego Canal, was submitted to the voters and carried. These bonds have all been issued to date, but nearly $500,000 have been paid off from the proceeds of the tax levied for a sinking fund, leaving outstanding Mar. 1, 1901, $8,500,660, which, with the $275,000 Comptroller's Certificates and $400,000 Adirondack Park Bonds and $900,000 Defense Bonds, a total of $10,075,660, constituted the State's indebtedness on Mar. 1, 1901.

DEBT LIMITATION—STATE.—The new Constitution has in some measure modified the provisions of the fundamental law restricting the power of the Legislature over the issue of debt, &c These provisions are found in Article 7. We give the sections of that article (Article 7 below which have reference to the subject.

State credit not to be given.—SECTION 1. The credit of the State shal not in any manner be given or loaned to or in aid of any individual association or corporation.

State debts, power to contract.—SEC. 2. The State may, to meet casual deficits or failures in revenues, or for expenses not provided for, contract debts; but such debts, direct or contingent, singly or in the aggregate, shall not at any time exceed one million of dollars; and the moneys arising from the loans creating such debts shall be applied to the purpose for which they were obtained, or to repay the debt so contracted, and to no other purpose whatever.

State debts to repel invasions.—SEC. 3. In addition to the above limited power to contract debts, the State may contract debts to repel invasion, suppress insurrection, or defend the State in war; but the money arising from the contracting of such debts shall be applied to the purpose for which it was raised, or to repay such debts, and to no other purpose whatever.

Limitation of legislative power to create debts.—SEC. 4. Except the debts specified in sections two and three of this article, no debts shall be hereafter contracted by or on behalf of this State, unless such debt shall be authorized by a law, for some single work or object, to be distinctly specified therein; and such law shall impose and provide for the collection of a direct annual tax to pay, and sufficient to pay, the interest on such debt as it falls due, and also to pay and discharge the principal of such debt within eighteen years from the time of the contracting thereof. No such law shall take effect until it shall, at a general election, have been submitted to the people, and have received a majority of all the votes cast for and against it at such election. On the final passage of such bill in either house of the Legislature, the question shall be taken by ayes and noes, to be duly entered on the journals thereof, and shall be: "Shall this bill pass, and ought the same to receive the sanction of the people?" The Legislature may at any time, after the approval of such law by the people, if no debt shall have been contracted in pursuance thereof, repeal the same; and may at any time, by law, forbid the contracting of any further debt or liability under such law but the tax imposed by such act, in proportion to the debt and liability which may have been contracted, in pursuance of such law, shall remain in force and be irrepealable, and be annually collected, until the proceeds thereof shall have made the provision hereinbefore specified to pay and discharge the interest and principal of such debt and liability. The money arising from any loan or stock creating such debt or liability, shall be applied to the work or object specified in the act authorizing such debt or liability, or for the repayment of such debt or liability and for no other purpose whatever. No such law shall be submitted to be voted on, within three months after its passage, or at any general election when any other law, or any bill, or any amendment to the Constitution, shall be submitted to be voted for or against.

Sinking Fund, how kept and invested.—SEC. 5. The sinking funds provided for the payment of interest and the extinguishment of the principal of the debts of the State shall be separately kept and safely invested, and neither of them shall be appropriated or used in any manner other than for the specific purpose for which it shall have been provided.

DEBT LIMITATION.—CITIES, COUNTIES, TOWNS AND VILLAGES.—The new Constitution of New York State puts a general and uniform limit to the power of all counties and cities of the State to contract and put out their obligations, leaving to the Legislature to fix the debt-making power of villages and towns only. These provisions are found in Article 8, Section 10. We give that section in full. The separation into paragraphs and the figures in parenthesis which number and begin the paragraphs are our own, we having inserted them so that those who need to refer to or use any particular portion can the more readily find the part desired. With that exception we give Section 10 of Article 8 as it reads, preserving even the punctuation.

(1) No county, city, town or village shall hereafter give any money or property, or loan its money or credit to or in aid of any individual, association or corporation, or become directly or indirectly the owner of stock in, or bonds of, any association or corporation; nor shall any such county, city, town or village be allowed to incur any indebtedness except for county, city, town or village purposes. This section shall not prevent such county, city, town or village from making such provision for the aid or support of its poor as may be authorized by law.

(2) No county or city shall be allowed to become indebted for any purpose or in any manner to an amount which, including existing

indebtedness, shall exceed ten per centum of the assessed valuation o the real estate of such county or city subject to taxation, as it appeared by the assessment rolls of said county or city on the last assessment for State or county taxes prior to the incurring of such indebtedness; and all indebtedness in excess of such limitation, except such as may now exist, shall be absolutely void, except as herein otherwise provided.

(3) No county or city whose present indebtedness exceeds ten per centum of the assessed valuation of its real estate subject to taxation, shall be allowed to become indebted in any further amount until such indebtedness shall be reduced within such limit.

(4) This section shall not be construed to prevent the issuing of certificates of indebtedness or revenue bonds issued in anticipation of the collection of taxes for amounts actually contained, or to be contained in the taxes for the year when such certificates or revenue bonds are issued and payable out of such taxes.

(5) Nor shall this section be construed to prevent the issue of bonds to provide for the supply of water; but the terms of the bonds issued to provide the supply of water shall not exceed twenty years, and a sinking fund shall be created on the issuing of the said bonds for their redemption, by raising annually a sum which will produce an amount equal to the sum of the principal and interest of said bonds at their maturity.

(6) All certificates of indebtedness or revenue bonds issued in anticipation of the collection of taxes, which are not retired within five years after their date of issue, and bonds issued to provide for the supply of water, and any debt hereafter incurred by any portion or part of a city, if there shall be any such debt, shall be included in ascertaining the power of the city to become otherwise indebted.

(7) Whenever hereafter the boundaries of any city shall become the same as those of a county, the power of the county to become indebted shall cease, but the debt of the county at that time existing shall not be included as part of the city debt. [At the November 1899 election an amendment to the Constitution was adopted changing this paragraph to read as follows: Whenever the boundaries of any city are the same as those of a county, or when any city shall include within its boundaries more than one county, the power of any county wholly included within such city to become indebted shall cease, but the debt of the county heretofore existing shall not, for the purposes of this section, be reckoned as a part of the city debt.]

(8) The amount hereafter to be raised by tax for county or city purposes, in any county containing a city of over one hundred thousand inhabitants, or any such city of this State, in addition to providing for the principal and interest of existing debt, shall not in the aggregate exceed in any one year two per centum of the assessed valuation of the real and personal estate of such county or city, to be ascertained as prescribed in this section in respect to county or city debt.

By the terms of the foregoing section, Paragraph (1), every "County, City, Town or Village" is included in the prohibition against (1) loaning "its money or credit," (2) in becoming "directly or indirectly the owner of stock in or bonds of any association or corporation," and (3) in incurring "any indebtedness except for County, City, Town or Village purposes." Most of the other paragraphs include only Counties and Cities.

According to Paragraph (6) it seems that "any debt hereafter incurred by any portion or part of a city, if there shall be any such debt, shall be included in ascertaining the power of the city to become other wise indebted."

We would also call special attention to Paragraph (7), declaring that [as amended in 1899] whenever the boundaries of any city may be the same as those of a county or when any city shall include within its boundaries more than one county, "*the power of any county wholly included within such city to become indebted shall cease*, but the debt of the county heretofore existing shall not * * be reckoned as a part of the city debt."

In May 1886 the New York Court of Appeals decided at the end of a litigation begun in July 1885 *that the sinking fund was not a part* of the city debt within the meaning of the above provision of the Constitution limiting the creation of debt to 10 per cent of the assessed valuation of the real estate.

Towns and Villages are not limited in their debt-making power by the Constitution. Those municipalities will be governed by general or special statutes.

The 1895 Legislature passed an act "for the protection of bona fide purchasers and holders of coupon bonds and of municipal corporations against misfeasance, malfeasance or negligence of public officers." The full text of this law was published in the CHRONICLE of June 8, 1895, V. 60, p. 1023.

EXEMPTION FROM TAXATION.—There is one general New York statute with reference to exemption from taxation "for town, county, municipal or State purposes" of a class of bonds "issued by any village, city, town or county" in the State, which seems to have a wider application than is generally known. As originally passed in 1881 the exemption applied only to bonds issued to pay up or retire bonds "created to aid in the construction of any railroad." A new law was passed in 1886 (Chapter 316) making the tax exemption apply to "new bonds" issued under the act to retire any of the then "*present* bonded indebtedness of any village, city, town or county in this State." With reference to such new bonds the third section of the act of 1886 says: "All new bonds issued by any village, city, town or county in this State under the provisions of this act *shall be exempt* from taxation for town, county, municipal or State purposes until the period when they are made payable." In 1893 still another law was passed making the statute cover any bonded indebtedness. The law as it now stands will be found in editorial on page 4 of the April, 1894, SUPPLEMENT.

In addition to the foregoing there are special laws authorizing special issues that are exempt, but which we have not room to quote here. For New York City there is a general statute which directs how any of its bonds may be made exempt from city and county taxation. That statute is subjoined.

SEC. 137. The Commissioners of the "Sinking Fund of the City of New York for the redemption of the city debt," when duly authorized by ordinance of the Common Council, may, by concurrent resolution, direct that the bonds and stocks of said city, issued pursuant to law, after June ninth, eighteen hundred and eighty, shall be exempt from taxation by said city and by the county of New York, but not from taxation for State purposes; and all bonds and stocks issued pursuant to such authority shall be exempt from taxation accordingly, provided that said bonds and stocks shall not bear interest exceeding the rate of four and one-half per centum per annum. The bonds and stocks of the city of New York issued pursuant to the provisions of this section shall express upon their face the fact that they are exempt from taxation by the city and county of New York, but not from State taxation, and shall refer to this section, and to the ordinance of the Common Council, and the resolution of the Commissioners of the Sinking Fund authorzing their issue.

SAVINGS BANK INVESTMENTS—POWERS AND RESTRICTIONS.—In 1898 the New York Legislature passed an amendment to paragraph 6, Sec. 116, of the Savings Bank law of 1892. The amendment extended investments of savings banks to first mortgage railroad bonds the principal part of whose railroad is located within this State, and in 1899 the field of railroad investments was still further enlarged. In 1900 the Chicago & Alton RR. was added to the list and other changes made in paragraph 6 *Some further additions have been proposed at the* 1901 *session of the Legislature, but no action on them had been taken up to April* 8

We give section 116 below as it stands with these amendments incorporated.

Sec. 116. *In what securities deposits may be invested.*—The trustees of any savings banks may invest the moneys deposited therein and the income derived therefrom only as follows:

1. In the stocks or bonds or interest-bearing notes or obligations of the United States, or those for which the faith of the United States is pledged to provide for the payment of the interest and principal, including the bonds of the District of Columbia.

2. In the stocks or bonds or interest-bearing obligations of this State, issued pursuant to the authority of any law of the State.

3. In the stocks or bonds or interest-bearing obligations of any State of the United States which has not within ten years previous to making such investment by such corporation defaulted in the payment of any part of either principal or interest of any debt authorized by the legislature of any such State to be contracted; and in the bonds or interest-bearing obligations of any State of the United States, issued in pursuance of the authority of the legislature of such State, which have, prior to the passage of this act, been issued for the funding or settlement of any previous obligation of such State theretofore in default, and on which said funding or settlement obligation there has been no default in the payment of either principal or interest since the issuance of such funded or settlement obligation, and provided the interest on such funded or settlement obligations has been paid regularly for a period of not less than ten years next preceding such investment.

4. In the stocks or bonds of any city, county, town or village, school district bonds and union free school district bonds issued for school purposes, or in the interest-bearing obligations of any city or county of this State, issued pursuant to the authority of any law of the State for the payment of which the faith and credit of the municipality issuing them are pledged.

5. In the stocks or bonds of the following cities: Boston, Worcester, Cambridge, Lowell, Fall River, Springfield and Holyoke, in the State of Massachusetts; St. Louis, in the State of Missouri; Cleveland, Cincinnati and Toledo, in the State of Ohio; Detroit and Grand Rapids, in the State of Michigan; Providence, in the State of Rhode Island; New Haven and Hartford, in the State of Connecticut; Portland, in the State of Maine; Philadelphia, Pittsburg, Alleghany, Reading and Scranton, in the State of Pennsylvania; Minneapolis and St. Paul, in the State of Minnesota; Des Moines, in the State of Iowa; Milwaukee, in the State of Wisconsin; Louisville, in the State of Kentucky; Paterson, Trenton, Newark and Camden, in the State of New Jersey; Baltimore, in the State of Maryland. If at any time the indebtedness of any of said cities, less its water debt and sinking fund, shall exceed seven per centum of its valuation for purposes of taxation, its bonds and stocks shall thereafter, and until such indebtedness shall be reduced to seven per centum of the valuation for the purposes of taxation, cease to be an authorized investment for the moneys of savings banks, but the superintendent of the banking department may, in his discretion, require any savings bank to sell such bonds or stocks of said city, as may have been purchased prior to said increase of debt.

6. In bonds and mortgages on unincumbered real property situated in this State, worth at least twice the amount loaned thereon. Not more than sixty-five per centum of the whole amount of deposits shall be so loaned or invested. If the loan is on unimproved and unproductive real property, the amount loaned thereon shall not be more than forty per centum of its actual value. No investment in any bonds and mortgage shall be made by any savings bank except upon the report of a committee of its trustees charged with the duty of investigating the same, who shall certify to the value of the premises mortgaged or to be mortgaged, according to their best judgment, and such report shall be filed and preserved among the records of the corporation. Also in the first mortgage bonds of any railroad corporation of this State, the principal part of whose railroad is located within this State; or of any railroad corporation of this and any other State or States connecting with and controlled and operated as part of the system of any such railroad corporation of this State, and of which connecting railroad at least a majority of its capital stock is owned by such a railroad corporation of this State, or in the mortgage bonds of any such railroad corporation of an issue to retire all prior mortgage debt of such railroad companies respectively; provided that at no time within five years next preceding the date of any such investment shall such railroad corporation of this State or such connecting railroad corporation respectively have failed regularly and punctually to pay the principal and interest of all its mortgage indebtedness, and in addition thereto regularly and punctually to have paid dividends upon all its outstanding capital stock during the preceding five years, at the rate of not less than four per centum per annum; and provided, further, that at the date of every such dividend the outstanding capital stock of such railroad corporation, or such connecting railroad company respectively shall have been equal to at least one-half of the total mortgage indebtedness of such railroad corporations respectively, including all bonds issued or to be issued under any mortgage securing any bond in which such investment shall be made. Also in the mortgage bonds of the following railroad corporations: The Chicago & North Western RR. Co., Chicago Burlington & Quincy RR Co., Michigan Central RR. Co., Illinois Central RR. Co., Pennsylvania RR. Co., Delaware & Hudson Canal Co., Delaware Lackawanna & Western RR. Co., New York New Haven & Hartford RR. Co., Boston & Maine RR. Co., Maine Central RR. Co., the Chicago & Alton RR. Co. Provided that at the time of making such investment the said railroads shall have earned and paid regular dividends of not less than four per centum per annum in cash on all their issues of capital stock for the ten years next preceding such investment, and provided the capital stock of any of said railroad corporations shall equal or exceed in amount one-third of the par value of all its bonded indebtedness; and further provided that all bonds hereby authorized for investments shall be secured by a mortgage which is a first mortgage on either the whole or some part of the railroad and railroad property actually in the possession of and operated by such company; or that such bonds shall be mortgage bonds of an issue to retire all prior mortgage debt of such railroad company; also in the first mortgage bonds of the Fonda Johnstown & Gloversville RR. Co., or in the mortgage bonds of said railroad company of an issue to retire all prior mortgage debts of said railroad company, and provided the capital stock of said railroad company shall equal or exceed in amount one-third of the par value of all its bonded indebtedness; and provided, also that such railroad be of standard gauge of four feet eight and one-half inches. Not more than twenty per centum of the whole amount of deposits of any bank shall be loaned or invested in railroad bonds, and not more than five per centum of the deposits of any bank shall be invested in the bonds of any one railroad. Street railroad corporations shall not be considered railroad corporations within the meaning of this subdivision.

[Under date of June 10, 1899, F. D. Kilburn, Superintendent of the State Banking Department, issued a circular naming the bonds in which savings banks may invest under the amendment of 1899. For list of, such bonds see CHRONICLE, V. 68, p. 1111. In 1899, as above stated the Chicago & Alton was added to the list.] The opinion of Attorney General J. C. Davies, declaring the refunding bonds of the Chicago & Alton RR. Co. a legal investment for savings banks, will be found in full in the CHRONICLE V. 70, p. 1260.

7. In real property subject to the provisions of the next section.

It will be noted that subdivision 7 (the last paragraph of the above) refers to the "next section" for the provisions applicable. This reference is to section 117 of the law of 1892; we omit that section as it relates only to real estate. Sections 118, 119 and 120 of the law of 1892 we subjoin.

SECTION 118. The trustees of every such corporation shall as soon as practicable invest the moneys deposited with them in the securities authorized by this article; but for the purpose of meeting current payments and expenses in excess of the receipts, there may be kept an available fund not exceeding ten per centum of the whole amount of deposits with such corporation, on hand or deposit in any bank in this State organized under any law of this State or of the United States, or with any trust company incorporated by any law of the State; but the sum so deposited in any one bank or trust company shall not exceed twenty-five per centum of the paid-up capital and surplus of any such bank or company; or such available fund, or any part thereof, may be loaned upon pledge of the securities or any of them named in subdivisions one, two, three and four (‡) of the preceding section but one, but not in excess of ninety per centum of the cash market value of such securities so pledged. Should any of the securities so held in pledge depreciate in value, after making any loan thereon, the trustees shall require the immediate payment of such loan or of a part thereof, or additional security therefor, so that the amount loaned shall at no time exceed 90% of the market value of the securities pledged for the same.

SECTION 119. Every such corporation may also deposit temporarily in the banks or trust companies specified in the last section the excess of current daily receipts over the payments, until such time as the same can be judiciously invested in the securities required by this article. Whenever it shall appear to the superintendent of banks that the trustees of any such corporation are violating the spirit and intent of this provision by keeping permanently uninvested all or an undue proportion of the moneys received by them, he shall report the facts to the Attorney-General, who shall proceed against such corporation in the manner provided in section eighty-two of this chapter.

SECTION 120. The trustees of any savings bank shall not loan the moneys deposited with them or any part thereof, upon notes, bills of exchange, drafts or any other personal securities whatever. In all cases of loans upon real property, a sufficient bond secured by a mortgage thereon, shall be required of the borrower, and all the expenses of searchers,* examinations and certificates of title or appraisal of value, and of drawing, perfecting and recording papers, shall be paid by the borrower.

HEMPSTEAD.—SMITH COX, Supervisor.

Hempstead is now a town in Nassau County, but was formerly a town in Queens Co., then including Far Rockaway, Hempstead, Inwood, Lawrence, Rockaway Beach and Seaford villages. On Jan. 1, 1898, that portion of the town lying "westerly of a straight line drawn from the southeasterly point of the town of Flushing through the middle of the channel between Rockaway Beach and Shelter Island, in the county of Queens, to the Atlantic Ocean," became part of New York City, under the Greater New York Charter. This boundary was changed by the Legislature in April, 1899, and the new boundary is that portion of the old town of Hempstead "bounded on the east and north by the east and north bounds of the former village of Far Rockaway, and on the east by a line drawn due north from the northwest corner of said village to the south line of the town of Jamaica, as it existed on the thirty-first day of December, 1897." The bonds given below are those remaining as a debt against the town after assigning to New York City the portion belonging to it according to a decision of the Supreme Court of the Third Judicial District at Albany Dec. 9, 1899. See V. 69, p. 1357.

POPULATION OF THE BOROUGHS OF MANHATTAN AND THE BRONX, according to the U. S. Census of 1900, is 2,050,600; in 1890 the population of the old city of New York, comprising a somewhat smaller area than that of the present boroughs of Manhattan and the Bronx, was 1,515,301. On the basis of the present territory, population then was 1,529,301. See V. 71, p. 408. In 1880 New York City's population was 1,206,299; in 1870 it was 942,292.

BOROUGH OF BROOKLYN.

CITY OF BROOKLYN.

The old city of Brooklyn covered the entire area of the county of Kings, the county government being consolidated with that of the city on January 1, 1896, under the provisions of Chapter 954 of the Laws of 1895. Under the provisions of this act "the debt of the said county shall not be deemed to be or be included as a part of the debt of the City of Brooklyn, within the meaning of the provision of the Constitution of the State of New York limiting the power of cities to incur indebtedness." [See CHRONICLE, vol. 62, p. 49.] The towns of Flatbush, New Utrecht and Gravesend were annexed to the City of Brooklyn in 1894 and the town of Flatlands became a ward of the city on the first day of January, 1896.

The debt of the county of Queens is reported under the county's own name on a subsequent page; the amount of the original debt which was chargeable to the city of New York was adjudicated finally to be $3,796,032 11, leaving $1,011,967 89 as Nassau County's share of the old indebtedness. QUEENS CO.—CHAS. L. PHIPPS, Treasurer.

County seat is Long Island City. A good part of the old County of Queens is now included in the Greater New York, and a law changing the name of that portion of the old county *outside* of Greater New York to Nassau County went into effect January 1, 1899. The amount of the outstanding bonds of this county which will be chargeable to the city of New York has been finally determined by the Supreme Court (V. 71, p. 875.) Under this decision the city of New York is liable for $3,796,032 11 of the old debt of Queens County as it stood at the date of division and the remaining $1,011,967 89 becomes an obligation of Nassau County. Instead of apportioning certain bonds to New York City and to Nassau County, the debt and interest will not be divided, but will be paid by New York City, Nassau County paying over its proportion as it becomes due. New York City pays ·78952414973 of the principal and interest as it becomes due, and Nassau County ·21047585027.

The statement below shows the obligations of the old County of Queens which remained outstanding on Dec. 31, 1900.

HISTORY OF DEBT.—New Jersey has always been a conservative State; there are consequently no facts out of which to construct a history of debt issues. In a report made in 1838 the financial officer of the State affirmed that New Jersey had put out no obligations of any kind or loaned its credit to any company. The Constitution of 1844 forbade the creating of a State debt exceeding one hundred thousand dollars *except* for purposes of war, &c., as will more fully appear in the item below with respect to "debt limitation." This exception, under which it was allowable to exceed the hundred-thousand-dollar limit became operative on the occasion of the breaking out of our Civil War. Quite a debt was created at that period; the small amount the State now owes is the remnant of those war issues. The details are as follows.

LOANS— NAME AND PURPOSE.	—Interest.— Rate.	Payable.	—Principal.— When Due.	Outstand'g.
War loan.....	6	J & J	Jan. 1, 1902	71,000

INTEREST is payable in Jersey City and Trenton.

TOTAL DEBT.—The total bonded debt of the State on April 1, 1901, was $71,000, not including $48,000 certificates issued to the Commissioners of the Agricultural College under Act approved June 13, 1895. At previous dates it was:

Nov 1, 1900.....	$71,000	Nov. 1, 1896.....	$593,400
Nov. 1, 1899.....	71,000	Nov. 1, 1895.....	660,400
Nov. 1, 1898.....	194,000	Nov. 1, 1894.....	735,400
Nov. 1, 1897.....	394,000	Nov. 1, 1880.....	1,996,300

On Nov. 1, 1900, the cash balance on hand was $2,005,222 16.

ASSESSED VALUATION.—The assessed valuation, etc., has been

1900.....	$891,237,286	1894.....	$774,398,332	1882....	$534,917,876

In addition to the above the valuation of railroad and canal property in 1899 was $222,216,534 and in 1900 $223,384,249.

DEBT LIMITATIONS.—The provisions of law limiting and regulating the debt-making power in New Jersey will be better understood and the information will be made more serviceable to the investor if arranged in accordance with the civil divisions to which the provisions apply.

(1) *THE STATE* is restricted as to its debt-making power by the State Constitution. In Article IV, Section VI, paragraphs 3 and 4, the whole subject is disposed of. The third paragraph forbids a loan of the State's credit, and the fourth paragraph forbids the creation of debt. These provisions are as follows.

3. The credit of the State shall not be directly or indirectly loaned in any case.

4. The Legislature shall not in any manner create any debt or debts, liability or liabilities of the State, which shall singly or in the aggregate with any previous debts or liabilities at any time exceed one hundred thousand dollars, except for purposes of war, or to repel invasion, or to suppress insurrection, unless the same shall be authorized by a law for some single object of work, to be distinctly specified therein; which law shall provide the ways and means, exclusive of loans, to pay the interest of such debt or liability as it falls due, and also to pay and discharge the principal of such debt or liability within thirty-five years from the time of the contracting thereof, and shall be irrepealable until such debt or liability and the interest thereon are fully paid and discharged; and no such law shall take effect until it shall, at a general election, have been submitted to the people, and have received the sanction of a majority of all the votes cast for and against it at such election; and all money to be raised by the authority of such law shall be applied only to the specific object stated therein, and to the payment of the debt thereby created. This section shall not be construed to refer to any money that has been, or may be, deposited with this State by the Government of the United States.

According to the foregoing (4th paragraph), the power of the State for making debt is limited to $100,000, except (1) for purposes of war etc., and (2) when the authorization is for some single object of work specified therein, etc. In the latter case the mode of procedure is, as will be seen, given in the same paragraph of the Constitution.

(2) *CITIES, COUNTIES, TOWNS, Etc.*, are also restricted in the making of certain kinds of debt by Article I, paragraphs 19 and 20, of the Constitution. We give the paragraph in full.

19. No county, city, borough, town, township or village shall hereafter give any money or property, or loan its money or credit, to or in aid of any individual, association or corporation, or become security for or be directly or indirectly the owner of any stock or bonds of any association or corporation.

20. No donation of land or appropriation of money shall be made by the State or any municipal corporation to or for the use of any society, association or corporation whatever.

It will be noted that the above prohibition relates to the giving of money, property or credit of cities, &c., to individuals, associations, or corporations, &c., and that the prohibition is absolute, forbidding the doing of such acts in any form, shape or manner. There is one other restriction of the State Constitution, and that is found in Article IV. Section VII., paragraph 11, which forbids the Legislature passing any *special* laws "regulating the internal affairs of *towns and counties*"; in this and in all other cases in which according to the judgment of the Legislature general laws are feasible, the Constitution states that general laws must be provided.

In compliance with this last provision the Legislature has passed many general laws covering bonded indebtedness of cities, towns, etc. They are so numerous they cannot be cited here. We would refer the reader to the Revised Statutes of New Jersey published in 1896 under the heading "Municipal Bonds" pages 693 to 716 both inclusive; and also to the same heading ("Municipal Bonds") pages 2220, etc.

TAX EXEMPTION.—The State of New Jersey passed in 1893 a general statute which exempts from taxation the bonds, securities and other evidences of indebtedness of municipal corporations; the provision covers not only the bonds, etc., to be hereafter issued, but those as well that have been heretofore issued. It is a sweeping statute, and one which is of decided interest to the holders of the municipal securities of the State. The full text of it may be found in the STATE AND CITY SUPPLEMENT for October, 1898, page 58.

POPULATION OF STATE.—Population has been as follows.

1900.....	1,883,669	1870.....	906,096	1840.....	373,306
1890.....	1,444,933	1860.....	672,035	1830.....	320,823

SAVINGS BANKS' INVESTMENTS—POWERS AND RESTRICTIONS.—The last *general* savings bank law of New Jersey was passed in 1876. Since then the legislative tendency in the matter of investments has been in the direction of allowing the management of these institutions a wider choice and a larger discretion. In 1878 the limits of the 1876 law were broadened in several particulars by a new act of two sections, the first taking the place of section 26 of the act of 1876. In 1886 still another law was passed in place of the first section of the law of 1878. Again in 1889 an act was passed extending materially the provisions of section two of the law of 1878, which covered the same subject matter contained in section 29 of the original law of 1876, and thereby section 26 of the law of 1876 was superseded by the law of 1886, and section 29 was superseded by the law of 1889. In 1901 Section two was further amended in the way specified below. In 1896 a supplement approved March 30, 1896 (Chapter 139, laws of 1896) to the law of 1876, making school district bonds an authorized investment, went into effect. In 1897 an act was passed (approved April 9) authorizing investments in bonds issued by commissioners appointed by the Supreme Court of the State. In 1899 a further supplement extending the permissible line of municipal investments so as to include the bonds of townships and boroughs was approved March 24. An attempt to add such securities to the list was made in 1898, but the measure then failed to receive the approval of the Governor. The 1899 law is as follows:

SECTION 1. It shall be lawful for any savings bank in this State to invest its funds in the bonds of any city, county, town or township of this State issued pursuant to the authority of any law of this State, or in the bonds of any borough or village or school district of this State issued pursuant to the authority of any law of this State; *provided*, such borough, village or school district shall not, within the ten years next preceding, have defaulted in the payment of any part of either principal or interest of any legal debt or obligation thereof; *and provided further*, that the total indebtedness of any such borough or village does not exceed ten per centum of its assessed valuation, and such school district bonds are by law charged upon all the property of the inhabitants of such district, or in any interest-bearing obligation (other than obligations commonly known as improvement certificates) issued by the city, county, town, township, borough or village in which such bank or institution is situated.

The following is the law of 1897 (approved April 9, 1897):

"Sec. 1. It shall be lawful for any bank, trust company, savings bank or savings institution * * * incorporated under the laws of this State, to invest moneys belonging to or deposited with any such companies in any bonds authorized by the laws of this State to be issued by any commission appointed by the Supreme Court of this State by virtue of any law of this State."

We omit the law of 1896 with reference to school district bonds because its provisions are included in the laws of 1899, quoted above.

Next we give the leading provisions of the general law as to investments.

SECTION 1. That the first section of the act of which this is a supplement be and the same is hereby amended so as to read as follows:

That it shall not be lawful, from and after the passage of this act, for any savings bank or other savings institution, whether chartered or incorporated under a general or special act of the legislature of this State, and any provision contained in the charter, or any supplement thereto, of such savings bank or savings institution to the contrary, to invest the moneys deposited with the same in any manner, except as follows, to wit:

I. In the stocks or bonds or interest-bearing notes or obligations of the United States, or those for which the faith of the United States is distinctly pledged to provide for the payment of the principal and interest thereof;

II. In the interest-bearing bonds of this State;

III. In the bonds of any State in the Union that has not, within ten years previous to making such investment by any such bank or institution, defaulted in the payment of any part of either principal or interest of any debt authorized by any legislature of such State to be contracted.

IV. In the stocks or bonds of any city, town, county or village of this State, issued pursuant to the authority of any law of this State, or of the cities of New York, Brooklyn and Philadelphia, or in any interest-bearing obligations (other than those commonly known as improvement certificates) issued by the city, town or borough in which such bank or institution shall be situated; *(See below for provision including the bonds of* certain cities and counties of *any* State in the U. S).

V. In bonds secured by mortgages which shall be a first lien on real estate situate in this State, and worth at least double the amount loaned thereon, but not to exceed eighty per centum of the whole deposits shall be so loaned or invested; but in case the loan is on unimproved or unproductive real estate, the amount loaned thereon shall not be more than thirty per centum of its actual value; and no investment in any bond and mortgage shall be made by any savings bank, except upon the report of a committee of at least three of the managers, directors or trustees of any such bank or institution, and a majority of which committee shall certify to the value of the premises mortgaged, or to be mortgaged, according to their best judgment; such report shall be filed and preserved among the records of the institution;

VI. In real estate strictly in accordance with the following provisions.

We do not reprint the real estate provisions, as they cover a matter not germane to our present subject. It is sufficient to say that they are two in number, marked *(a)* and *(b)*, and may be summarized as below:

(a) authorizes the holding of a plot for erection of a banking building or buildings, portions of which may be rented, but the cost of lot and buildings must not exceed 50% of the net surplus of the corporation; *(b)* all purchases under foreclosure sales upon mortgages owned by the corporation or sales under judgments or decrees obtained for debts due, etc.; and all such real estate must be sold within five years unless, on application to the State Board having supervision of Savings Banks, time shall be extended.

But the character of permissible investments was further greatly enlarged by the law of 1886, which is as follows:

SECTION 1. That it shall be lawful for any savings bank or savings institution, incorporated under any law of this State, to invest moneys deposited with it in the bonds of any city or county of any State of the United States of America, which have been or may be issued pursuant to the authority of any law of any such State; *provided*, no such city or county has, within ten years previous to making such investment by any such savings bank or savings institution of this State, defaulted in the payment of any part of either principal or interest of any debt authorized by law of such State to be contracted; *and provided, further*, that the total indebtedness of any such city or county is limited by law to ten percentum of its assessed valuation.

By another act the banks also have the right to *invest in railroad bonds* under certain restrictions. The authorization was given by Section 2 of an act approved February 22, 1888. Subsequently (April 27, 1888,) this Section 2 was repealed. On March 27, 1889, however, it was again re-enacted. The section is as follows:

SECTION 2. That it shall be lawful for any savings bank in this State to invest its funds in first mortgage bonds of any railroad company which has paid dividends of not less than four per centum per annum regularly, on their entire capital stock, for a period of not less than five years next previous to the purchase of such bonds, or in any consolidated mortgage bonds of any such company authorized to be issued to retire the entire bonded debt of such company.

The other law referred to above passed in 1889 amending section 2 of the law of 1878 is as below. It relates to *loans on collaterals*. As noted above, a slight but very important alteration in the phraseology of this section was made by a law approved March 22, 1901, and which forms chapter 148 of the laws of 1901. The new words introduced are indicated by brackets [ ] below.

SECTION 2. Hereafter it shall not be lawful for any saving institution in this State to loan the money on deposit with the same, or any part thereof, upon notes, bills of exchange or drafts, excepting upon the additional pledge of collateral security or securities, which collateral security or securities shall be of the same nature and character as those in which the money deposited may be invested, as directed in the first section of this act, or the capital stocks of national and State banks, or [the capital stock or bonds of] other corporations of this State, which have not defaulted in the payment of interest [or] dividends within two years next preceding the time of such loan, and then only to the extent of *eighty* per centum of the *market* value of such collaterals; *provided*, that the total amount of such loans shall not exceed fifteen per centum of the total deposits held by such institution.

In addition to the foregoing (according to section 27 of the general law of 1876) the managers can keep on hand or on deposit in any bank in the State, or in any trust or safe deposit company in New Jersey, New York or Pennsylvania, an available fund of not exceeding ten per cent of the whole amount of deposits with such corporation, or loan the same on pledge of the securities named in the first section cited above. Also (according to section 28 of the general law of 1876) they can deposit temporarily in banks the excess of daily receipts over payments until such time as they may be judiciously invested.

JERSEY CITY.—{EDWARD HOOS, Mayor. ROBERT S. JORDAN, Comptroller.

Jersey City formerly suffered greatly from difficulty in collecting taxes and assessments. Under the Martin Act, however, passed some years ago by the Legislature, arrears of taxes are made liens on the property, and if not paid within three years the property can be sold to satisfy them. The city has also succeeded in adjusting the taxes with the railroads, and the latter now pay into the treasury about $225,000 annually. On Feb. 13, 1900, the citizens authorized the purchase of a water plant (now building) for the sum of $7,595,000. V. 70, p. 344. Jersey City is in Hudson County.

RAHWAY.—CHAS. B. HOLMES, Mayor. R. VANDERHOVEN, Treasurer.

This city, of Union County, was declared bankrupt in 1882, and a compromise of the debt exclusive of the water debt ($185,000) was forthwith agreed to with most of the leading creditors at 35 cents on the dollar, the debt, exclusive of water debt, then amounting to about $1,200,000. This settlement was completed in 1894, and interest is now paid promptly on the new bonds. The water bonds were renewed in 1891 at 4 per cent, an agreement having been made in 1890 by which all accrued interest at 7 per cent was adjusted at the 35 per cent rate. Interest on the water bonds is also promptly paid.

DEBT LIMITATION—In Pennsylvania the limit to the indebtedness of the State, and to the indebtedness of the cities and minor civil organizations in the State, is fixed by the State Constitution.

1 *State indebtedness.*—With regard to the State, the regulations controlling and governing debt creation, payment, &c., are found in Sections 4, 5, 6, 11, 12, 13 and 14 of Article IX of the Constitution, and are as follows.

ARTICLE IX, Sec. 4. No debt shall be created by, or on behalf of, the State except to supply casual deficiencies of revenue, repel invasions, suppress insurrection, defend the State in war, or to pay existing debt; and the debt created to supply deficiencies in revenue shall never exceed, in the aggregate at any one time, one million of dollars.

SECTION 5. All laws authorizing the borrowing of money by, and on behalf of, the State shall specify the purpose for which the money is to be used, and the money so borrowed shall be used for the purpose specified and no other.

SECTION 6. The credit of the Commonwealth shall not be pledged or loaned to any individual, company, corporation or association, nor shall the Commonwealth become a joint-owner or stockholder in any company, association or corporation.

SECTION 11. To provide for the payment of the present State debt, and any additional debt contracted as aforesaid, the General Assembly shall continue and maintain the sinking fund sufficient to pay the accruing interest on such debt, and annually to reduce the principal thereof by a sum not less than two hundred and fifty thousand dollars; the said sinking fund shall consist of the proceeds of the sales of the public works, or any part thereof, and of the income or proceeds of the sale of any stocks owned by the Commonwealth, together with other funds and resources that may be designated by law, and shall be increased from time to time by assigning to it any part of the taxes or other revenue of the State not required for the ordinary and current expenses of government, and unless in case of war, invasion or insurrection, no part of the said sinking fund shall be used or applied otherwise than in the extinguishment of the public debt.

SECTION 12. The moneys of the State, over and above the necessary reserve, shall be used in the payment of the debt of the State, either directly or through the sinking fund, and the moneys of the sinking fund shall never be invested in or loaned upon the security of anything except the bonds of the United States or of this State.

SECTION 13. The moneys held as necessary reserve shall be limited by law to the amount required for current expenses, and shall be secured and kept as may be provided by law. Monthly statements shall be published, showing the amount of such moneys, where the same are deposited, and how secured.

SECTION 14. The making of profit out of the public moneys, or using the same for any purpose not authorized by law, by any officer of the State, or member or officer of the General Assembly, shall be a misdemeanor, and shall be punished as may be provided by law; but part of such punishment shall be disqualiffcation to hold office for a period of not less than five years.

State loans in Pennsylvania, whether created for original indebtedness or authorized to fund existing indebtedness, are usually negotiated through the Governor and Commissioners of the sinking fund.

The last act of the Pennsylvania Legislature authorizing a public loan was the act of June 8, 1881, when a thirty-year loan was effected to fund existing indebtedness at a lower rate of interest.

The earliest date at which the last of the existing indebtedness of Pennsylvania will mature is February 1, 1912, and under existing arrangements the accumulations in the sinking fund will at that time pay the total State indebtedness.

(2) *County and Municipal Indebtedness.*—Under the laws of Pennsylvania the power to create county loans is in the Board of County Commissioners, which consists in each county of three persons, elected tri-ennially under the minority system of voting, by which the minority party in each County usually has one member of the Board.

In cities and boroughs the power to create indebtedness is vested in councils, municipal debts being created by ordinance.

The creation of county, city and other municipal indebtedness is subject to the following constitutional limitations.

ARTICLE IX, Sec. 7. The General Assembly shall not authorize any county, city, borough, township or incorporated district to become a stockholder in any company, association or corporation, or to obtain or appropriate money for, or to loan its credit to, any corporation, association, institution or individual.

SECTION 8. The debt of any county, city, borough, township, school district, or other municipality or incorporated district, except as herein provided, shall never exceed seven per centum upon the assessed value of the taxable property therein, nor shall any such municipality or district incur any new debt, or increase its indebtedness to an amount exceeding two per centum upon such assessed valuation of property, without the assent of the electors thereof at a public election in such manner as shall be provided by law; but any city the debt of which now exceeds seven per centum of such assessed valuation may be authorized by law to increase the same three per centum, in the aggregate at any one time, upon such valuation.

SECTION 9. The Commonwealth shall not assume the debt, or any part thereof, of any city, county, borough or township, unless such debt shall have been contracted to enable the State to repeal invasion, suppress domestic insurrection, defend itself in time of war, or to assist the State in the discharge of any portion of its present indebtedness.

SECTION 10. Any county, township, school district or other municipality incurring any indebtedness shall, at or before the time of so doing, provide for the collection of an annual tax sufficient to pay the interest, and also the principal thereof within thirty years.

(3) *Townships and School Districts.*—In the various school districts of the State the school directors have the power to create loans, subject to the limitations of Section 10 above quoted, to provide for the redemption of the same within thirty years.

In townships, the only authority, except that of the school directors to borrow money, is in the road supervisors, who have no power to create bonded indebtedness, but simply to make a temporary loan for necessary expenses, which must be provided for by an assessment of sufficient township tax rate, known as road tax.

POPULATION OF STATE.—The population of Pennsylvania has been reported as follows in the years named

1890	5,258,014	1850	2,311,786	1810	810,091

SAVINGS BANKS INVESTMENTS—POWERS AND RESTRICTIONS.—Philadelphia is, we believe, entitled to the distinction of starting the first savings institution in the United States. The name this association bore was the "Philadelphia Savings Fund Society," and it still exists, bearing the same name. Originally the bank was not incorporated, but was a voluntary organization, such societies in Great Britain being at that time of a like character. The date of the organization was November 27, 1816, and the bank was opened for business December 2, 1816. Mr. Hutchinson, who, now holds the office of President, states that the oldest ledger of the company goes back to the time of opening, and shows a deposit on that day (December 2, 1816) of five dollars. The company was not incorporated until February 25, 1819.

It is surprising that Pennsylvania, although engaged in such an early venture in the department of savings institutions, should have made so little progress in the same department since. Indeed, the second organization does not bear date until 1847, and we think there had only been 10 mutual savings institutions organized in the whole State from 1816 down to the early part of 1890. We may assume, however, that this slow development was in no measure due to a lack of desire for savings banks on the part of the people of that commonwealth. That such institutions were sought and needed is sufficiently evident from the fact that nine of the ten companies referred to above reported in 1890 that they held $63,957,341 of deposits. In 1889 a general law, facilitating the incorporation of savings banks, was passed by the Legislature. Since then there has been a small addition to the number of institutions, the total doing business in the State in November, 1900, being 17, with deposits aggregating $107,621,381 19.

The provisions of the special charters are all liberal as to investments. A law passed in 1885, and a supplement of the same passed in 1889, authorizing the extension for twenty years of special charters, contains the following.

"*Provided also*, that no * * * Savings Institution or Savings Bank having no capital stock, renewing or extending its charter, corporate rights and franchises, under the provisions of this act, shall thereafter be allowed the privileges of a bank of discount, nor be allowed to loan any money received on deposit, EXCEPT first mortgage or lien upon real estate within this commonwealth, upon the bonds or securities of the United States or of this State, or upon county, city, borough, township or school bonds of any county, city, borough, township or school district within this commonwealth, *or any other good and valid securities.*"

Authority to loan on any "good and valid security "appears to confer about as broad a discretion upon the managers as could be expressed in a statute.

It was not until 1889, as already stated, that a general law facilitating the organization of savings institutions was passed. That law of 1889 is indeed well adapted not only for facilitating, but for stimulating, the growth of the system. Its influence in the latter direction would seem to be assured under the liberality of the provisions respecting investments. The following is section 17, which contains the investment limitations; we would especially direct attention to subdivision four of this section:

SECTION 17.—It shall be lawful for the trustees of any savings bank to invest money deposited therein only as follows:

(1.) In the stocks or bonds or interest-bearing notes or the obligations of the United States, or those for which the faith of the United States is pledged to provide for the payment of the interest and the principal.

(2) In the stocks or bonds of the Commonwealth of Pennsylvania bearing interest.

(3) In the stocks or bonds of any State in the Union that has not within ten years previous to making such investments, by such corporation, defaulted in the payment of any part of either principal or interest of any debt authorized by any Legislature of such State to be contracted.

(4) In the stocks or bonds of any city, county, town or village of any State of the United States, issued pursuant to the authority of any law of the State, or in any interest-bearing obligations issued by the city or county in which such bank shall be situated.

(5) In bonds and mortgages on unincumbered, improved real estate, situated in this State.
